Emotion And Value:

Emotion and Value Sabine Roeser, Cain Todd, 2014-11-06 This volume brings together new work by leading philosophers on the topics of emotion and value and explores issues at their intersection Philosophers and psychologists working on the emotions have reached something of a consensus about the complex inter related nature of the affective and cognitive components of emotions and have increasingly focussed on the important epistemological role that emotions play in giving us access to values At the same time an increasing number of philosophers have become attracted to analyses of value that give emotions a prominent place in evaluative judgements and experiences The work undertaken in each of these areas has important implications for current research on topics such as the role that emotions play in practical rationality and moral psychology the connection between imagination and emotion in the appreciation of fiction and more generally with the ability of emotions to discern axiological saliences and to ground or fail to ground the objectivity of ethical or aesthetic value judgements This volume makes a unique contribution to scholarship on emotion and value by bringing together top authors from these lines of research In addition the volume contains a number of contributions that explore various links between the emotions and self understanding touching on a range of themes that include depression empathy agency guilt and self trust All of these issues are approached from a number of different perspectives in order to present the reader with a wide view of this extremely rich terrain and to demonstrate how the latest thinking in a number of currently intensive areas of research is deeply interconnected

Fact and Value in Emotion Louis C. Charland, Peter Zachar, 2008 There is a large amount of scientific work on emotion in psychology neuroscience biology physiology and psychiatry which assumes that it is possible to study emotions and other affective states objectively Emotion science of this sort is concerned primarily with facts and not values with description not

prescription The assumption behind this vision of emotion science is that it is possible to distinguish factual from evaluative aspects of affectivity and emotion and study one without the other But what really is the basis for distinguishing fact and value in emotion and affectivity And can the distinction withstand careful scientific and philosophical scrutiny The essays in this collection all suggest that the problems behind this vision of emotion science may be more complex than is commonly supposed

Kretz,2020-10-14 Universities teach courses in ethics but do they teach students how to be ethical in practice Lisa Kretz s Ethics Emotion Education and Empowerment explores the ways that philosophical ethics are currently taught and argues that dominant approaches fail to adequately support ethical action in part because emotions are all too often ignored or repressed in university classrooms In isolation abstract theoretical content fails to motivate The ability to reason through an ethical dilemma does not by itself of necessity impact ethical action Empowered action requires intentional emotional engagement Kretz argues that part of the reason affective pedagogy fails to get sufficient uptake is due to the operations of oppression There is a long history of the reason emotion dualism undermining recognition of the necessary and valuable epistemic roles emotions play in moral life and serving as a political tactic to undermine the experience of oppressed groups This impoverishes ethical pedagogy because it is to the detriment of their ability to teach ethics in a comprehensive way and strips the potential of supporting students to enact their own reflectively held ethical beliefs and values Using the example of the environmental crisis Kretz makes a case for supporting students as engaged activists aware of their capacity to ethically change the world *Emotional and social value of organizations* Virginia Barba-Sánchez,Jose Luis Retolaza,Leire
