Should California politicians plunge ahead with plans for a high speed rail that every expert says despite the allure will go largely unused and will never pay back the massive investment while at this very moment potholes go unfilled all across the state? What path is best for emerging countries to keep pace with dramatic economic growth for their part? What are the social and financial costs of gridlock in our cities? Features Approximately 675 signed articles authored by prominent scholars are arranged in A to Z fashion and conclude with Further Readings and cross references. A Chronology helps readers put individual events into historical context, a Reader's Guide organizes entries by broad topical or thematic areas, a detailed index helps users quickly locate entries of most immediate interest, and a Resource Guide provides a list of journals, books, and associations and their websites.
