Is Everything Just A Coincidence:

The Dimensions of a Higher Intelligent Living Being Jeffery A. Smith, 2015-09-22 The dimensions of a higher intelligent living being part 1 is about what dimensions are in life because I think any dimension is something for any dimension to be what any is in life and therefore the dimensions of a higher intelligent living being is about how dimensions are in life because I think any dimension is something for any dimension to be how any dimension is in life even though the dimensions of a higher intelligent living being part 1 is about the possibility of a higher intelligent living being because I think everything is created by a higher intelligent living being that I choose to call God different aspects of God Gods will Gods state of consciousness Gods thoughts Gods mind and Gods being how everything is in relation to God how any dimension is able to be overlapping and co existing with any other dimension the embodiment of God someone something and everything because I think there are different characteristics or features that is apart of making up the embodiment of God someone something and everything God and someone having a choice of right or wrong because I think God and someone can choose something that is right or wrong for God and someone to be having a choice of right or wrong how something doesnt have a choice of right or wrong how something is opposite of itself someones thoughts because I think someones thoughts is someones history of someones life the truth or a lie because I think someone can be right or wrong for someone to be choosing the truth or a lie someones beliefs because I think someones thoughts is someones beliefs and someones feelings because I think someone has feelings for someone to be feeling what someone is feeling **Never Curse the Rain: The Adventures of Wilder Good #9** S. J. Dahlstrom, 2025-06-17 Does praying for rain work Thirteen year old Wilder Good asks his grandfather Papa that question on a spring break visit to his ranch in West Texas The ranch is mired in another drought and when Wilder s cousin from New York Frankie accidentally starts a wildfire chaos erupts Wilder and Frankie witness Papa struggle through the weariness from fire drought and loss and face family myth and folklore for the first time Wilder and Frankie discover adventure in every canyon from wild pigs horses cattle and are left to wonder at the danger and beauty of a landscape and lifestyle that can both kill and create *Is It Just Me or Is Everything Shit?* Steve Lowe, Alan McArthur, 2008-11-12 An encyclopedic attack on modern culture so hilariously bitter that it actually becomes uplifting Based on two runaway UK bestsellers this new American edition has been ingeniously adapted and features exclusive new material for US audiences by Brendan Hay a former Daily Show headline producer and contributing writer to America The Book If you hate chick lit Che Guevara merchandise pop Kabbalah cosmetic surgery gone wrong as tv programming DVDs with ads you can t skip or any of a few hundred other insanely annoying modern things then this book will finally lend credence to your frustrations Say NO to the awful ideas terrible people useless products and infuriating doublespeak that increasingly dominates our lives Never before has there been a book so completely full of shit Clearly it isn t just you **Demystifying Meaningful Coincidences (Synchronicities)** Gibbs A. Williams, 2010-02-15 Demystifying

Meaningful Coincidences Synchronicities The Evolving Self the Personal Unconscious and the Creative Process offers an original theory of the nature of meaningful coincidences synchronicities and their practical use from a naturalistic nonsupernatural and non Jungian perspective The findings are the outgrowth of Gibbs A Williams s forty year investigation both as a professional observer of some of his synchronicity prone patients receiving psychoanalytic psychotherapy as well as of his own intimate experience of these intellectually challenging and emotionally powerful occurrences His naturalistic perspective is in marked contrast to the findings of Jung and his followers who view these odd events as channeled messages from a transcendent realm of spiritual reality Instead Williams concludes that meaningful coincidences are the surface manifestations of an individual s unique creative process accommodating the best available resolution of a problem for a person initially feeling stuck in a seemingly intractable dilemma While his analysis robs the magic associated with only reacting to the numinous uncanny aura associated with synchronicities it nevertheless affirms a wondrous appreciation for the creative capacities of each person to order his or her own chaos Readers are treated to a rich mine of historical data novel concepts and theoretical insights drawn from speculative philosophy depth psychology and esoteric occult and spiritual traditions and they are shown how to decode their own synchronicities in order to be able to use their embedded messages for increased self awareness cohesiveness and expanding consciousness **The God Effect is Real** Sujith Ittan,2025-07-14

Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem Cosmic Impressions Walter Thirring,2007-05-01

Walter Thirring is an internationally renowned scientist who took part in and worked among those involved in many of the scientific developments of the twentieth century His book about the knowledge of the world as illuminated by twentieth century science was originally published in German This is the first English translation and is a book that is easily accessible to readers of popular science books and magazines Professor Thirring starts with cosmology as he examines scientific questions and theories concerning the intricacy of nature and the universe He branches into an exposition of chaos and its

connection to the macroscopic world as well as to life sciences touching on such diverse related subjects as the structure of the water molecule He speaks of advances with which he was personally involved and offers priceless vignettes of great scientists with whom he exchanged discussions including Albert Einstein Werner Heisenberg Erwin Schrödinger and Wolfgang Pauli His study of scientific theory and the intricacy of nature and the universe illuminates his argument for the role of a Creator Reflections on the creation of the universe lead to reflections about the creator he writes And arguing against atheism he points out When we are moved by a fantastic building a cathedral or a mosque and have finally realized what is behind the glorious proportions who would then say Now we don't need the architect anymore There might not even be one that could all just be the random product of circumstance Furthermore in making humankind special in his creation the Creator gave us the responsibility of seeking an understanding of creation and protecting it Tackling complex issues in science and religion Professor Thirring presents a compelling argument for their synthesis His tenure and influence in the scientific field make this argument even more compelling

[An Atheist to a Christian](#) Levi Matthew, 2015-01-21 Levi grew up as the kid who would never believe in anything His parents didn't take him to church and it wasn't until he was seven years old that he began occasionally joining his friend Edwin to go to a house of God But even then he did not know much about God Jesus or the Bible Spending time with Edwin and his family gave Levi a chance to escape his own unhappy home He witnessed his mother cheating on his father and had to deal with his father's verbal and physical abuse Through it all he just wanted to be loved like other children Levi went through high school drinking and struggling to fit in and then he joined the Marines all the while struggling to believe in God Even when his son was thought to have Down syndrome but was born healthy he shrugged it off as the doctors being wrong in their diagnosis The obstacles that Levi overcame and the wars he survived show that God loves everyone even those who don't love Him back He shares how he opened his eyes and went from Atheist to Christian
