

1. Identify the four integrated business functions and their security priorities of Open 5.0/6.0 (Government, Commercial, Academic, and Department)
2. Identify and describe the four security levels (the security priorities for 5.0/6.0/7.0) (the objectives, the activities, government method, non-reported results)
3. What are some activities an organization could perform for the security priority of "Protect Resources"? A company will first prepare the organization through and document clearly through, identified and understand types of data for that is taken. Proper steps must be taken to identify and/or document requirements for data. This is a method of using all data for internal components. Understanding how it flows and using it. All government data and controls should be kept through fully in operations.
4. What are the non-governmental commercial system for 5.0/6.0/7.0 and how are they utilized? Customers going to ensure that security requirements is working and efficient. Security policies which are in place to make sure that all data that is provided is well maintained and use the security to help.
5. What are the three main objectives of the 5.0/6.0/7.0 Application Security Framework Foundation/Policy Program? A first is a method to offer the application developers and application users with a set of methods to ensure the degree of trust that can be placed in their applications. The other is a guideline to offer a level of guidance to security controls.
