Love Myelitis Elorm Beenie, 2015-01-23 Love Myelitis is a book for all ages touches on the fundamental stages of love which almost everyone was involved in from childhood through diverse experiences from good to bad till become adults. Anyone who reads this book will be struck by his open mindedness his exhaustive understanding of human nature and his acute sense of humor carefully garnished with the theme of the book. Most people find it difficult to talk about their past and subscribe to the erroneous belief that when you speak about your past you give an arsenal to your enemies to gun you down. For the fear of people judging them by their past they decide not to discuss it. This deprives the younger and even unborn generations of an in depth understanding of life and living it. It is therefore not surprising that the surge in crime and suicide among the youth is astronomical. The author seeks to stem the tide of the increasing frustrations among the youths of today and forestall any mishap that might crop up from their actions. This book is a must read for all and sundry. **Forefronts in Research** Kagendo Mutua, Cynthia S Sunal, 2005-06-01 Research in Education in Africa The Caribbean and The Middle East the Book Series provides a comprehensive view of current and emerging educational knowledge research strategies and policy in these regions.
