Bridging the Soft Skills Gap Bruce Tulgan, 2015-08-25 Solve the number one problem with today s young workforce the soft skills gap The number one challenge with today s young talent is a problem hiding in plain sight the ever widening soft skills gap Today s new young workforce has so much to offer new technical skills new ideas new perspective new energy Yet too many of them are held back because of their weak soft skills Soft skills may be harder to define and measure than hard skills but they are just as critical People get hired because of their hard skills but get fired because of their soft skills Setting a good example or simply telling young workers they need to improve isn t enough nor is scolding them or pointing out their failings in an annual review However you can teach the missing basics to today s young talent Based on more than twenty years of research Bruce Tulgan renowned expert on the millennial workforce offers concrete solutions to help managers teach the missing basics of professionalism critical thinking and followership complete with ninety two step by step lesson plans designed to be highly flexible and easy to use Tulgan s research and proven approach has show that the key to teaching young people the missing soft skills lies in breaking down critical soft skills into their component parts concentrating on one small component at a time with the help of a teaching style manager Almost all of the exercises can be done in less than an hour within a team meeting or an extended one on one The exercises are easily modified and customized and can be used as take home exercises for any individual or group to guide one on one discussions with direct reports and in the classroom as written exercises or group discussions Managers and their young employees will find themselves returning to their favorite exercises over and over

again One exercise at a time managers will build up the most important soft skills of their new young talent These critical soft skills can make the difference between mediocre and good between good and great between great and one of a kind

Validation of Score Meaning for the Next Generation of Assessments Kadriye Ercikan,James W. Pellegrino,2017-03-27
Despite developments in research and practice on using examinee response process data in assessment design the use of such data in test validation is rare Validation of Score Meaning in the Next Generation of Assessments Using Response Processes highlights the importance of validity evidence based on response processes and provides guidance to measurement researchers and practitioners in creating and using such evidence as a regular part of the assessment validation process Response processes refer to approaches and behaviors of examinees when they interpret assessment situations and formulate and generate solutions as revealed through verbalizations eye movements response times or computer clicks Such response process data can provide information about the extent to which items and tasks engage examinees in the intended ways With contributions from the top researchers in the field of assessment this volume includes chapters that focus on methodological issues and on applications across multiple contexts of assessment interpretation and use In Part I of this book contributors discuss the framing of validity as an evidence based argument for the interpretation of the meaning of test scores the specifics of different methods of response process data collection and analysis and the use of response process data relative to issues of validation as highlighted in the joint standards on testing In Part II chapter authors offer examples that illustrate the use of response process data in assessment validation These cases are provided specifically to address issues related to the analysis and interpretation of performance on assessments of complex cognition assessments designed to inform classroom learning and instruction and assessments intended for students with varying cultural and linguistic backgrounds The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
