Accounting Practices in UK Manufacturing David Dugdale,2005-11-15 This report investigates the presentation and
 analysis of financial information in 41 UK Manufacturing companies Traditional and contemporary accounting techniques are
 exemplified in the case studies With old and new techniques explored the research shows that there is little that is new in
 management accounting theory and practice The study concludes that there is not one set of practices which all should
 follow Cima research report reveals methods currently used for reporting financial information in UK manufacturing
 companies Based on 41 companies it shows a rich diversity of reporting practices that are constrained neither by the
 financial accounting requirements of SSAP9 nor by any sense of general management accounting trends Financial Directors
