Thomas Cole's Journey Elizabeth Mankin Kornhauser, Tim Barringer, 2018-01-29 Thomas Cole 1801-1848 is celebrated as the greatest American landscape artist of his generation Though previous scholarship has emphasized the American aspects of his formation and identity never before has the British born artist been presented as an international figure in direct dialogue with the major landscape painters of the age Thomas Cole's Journey emphasizes the artist's travels in England and Italy from 1829 to 1832 and his crucial interactions with such painters as Turner and Constable For the first time it explores the artist's most renowned paintings The Oxbow

1836 and The Course of Empire cycle 1834-36 as the culmination of his European experiences and of his abiding passion for the American wilderness. The four essays in this lavishly illustrated catalogue examine how Cole's first-hand knowledge of the British industrial revolution and his study of the Roman Empire positioned him to create works that offer a distinctive even dissident response to the economic and political rise of the United States, the ecological and economic changes then underway and the dangers that faced the young nation. A detailed chronology of Cole's life focusing on his European tour retraces the artist's travels as documented in his journals, letters and sketchbooks, providing new insight into his encounters and observations. With discussions of over seventy works by Cole as well as by the artists he admired and influenced, this book allows us to view his work in relation to his European antecedents and competitors, demonstrating his major contribution to the history of Western art.

Old Masters Worldwide Susanna Avery-Quash, Barbara Pezzini, 2020-10-15. As a result of the Napoleonic wars, vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe. The knock-on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion. This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest. Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible, increasingly professional dealerships, firms such as Colnaghi and Agnew's in Britain, Goupil in France and Knoedler in the USA came into existence. *Old Masters Worldwide* explores the ways in which the pioneering practices of such businesses contributed to shape a changing market.

Handbook of Entrepreneurship and Marketing Ian Fillis, Nick Telford, 2020-07-31. This timely and incisive Handbook provides critical contemporary insights into the theory and practice of entrepreneurship and marketing in the twenty-first century. Bringing together rich and varied contributions from prominent international researchers, it offers a reflective synthesis of scholarship at the interface between marketing and entrepreneurship.

Picturesque and Sublime Tim Barringer, T. J. Barringer, Gillian Forrester, Sophie Lynford, Jennifer Raab, Nicholas Robbins, 2018-01-01. Thomas Cole (1801-1848) is widely acknowledged as the founder of American landscape painting. Born in England, Cole emigrated in 1818 to the United States where he transformed British and continental European traditions to create a distinctive American idiom. He embraced the picturesque, which emphasized touristic pleasures and the sublime, an aesthetic category rooted in notions of fear and danger. Including striking paintings and a broad range of works on paper from watercolors to etchings, mezzotints, aquatints, engravings and lithographs, this book explores the trans-Atlantic context for Cole's oeuvre. These works chart a history of landscape aesthetics and demonstrate the essential role of prints as agents of artistic transmission. The authors offer new interpretations of work by Cole and the British artists who influenced him, including J. M. W. Turner and John Constable, revealing Cole's debt to artistic traditions as he formulated a profound new category in art: the American sublime.
