 Equity Margo Gottlieb, 2016-03-22 Build the bridges for English language learners to reach success Ten years ago the first
 edition of Margo Gottlieb's *Assessing English Language Learners* changed the dialogue about how educators envision
 educational equity for students Since then the ELL and dual language student populations have grown exponentially and so
 has the need for forward thinking and effective approaches to facilitating students' academic language development alongside
 their content knowledge This thoroughly updated edition of Gottlieb's classic delivers a complete set of tools, techniques, and
 ideas for planning and implementing instructional assessment The book includes A focus on academic language use in every
 discipline from mathematics to social studies within and across language domains Emphasis on linguistically and culturally
 responsive assessment as a key driver for measuring academic achievement A reconceptualization of assessment as for and
 of learning Reflection questions to stimulate discussion around assessment policies and practices to maximize opportunities
 for teacher input and student engagement This book is an essential resource for pre-service and in-service teachers, educator
 teams, and school leaders striving toward equity in every classroom In this exciting practitioner-friendly volume Margo
 Gottlieb shows us how assessment as for and of learning can provide a level playing field for today's language learners
 Educators working with English language learners will find this assessment moxie book truly invaluable W James Popham
 Professor Emeritus University of California Los Angeles There are no other books available that cover the topic of fair and
 equitable assessment practices for English learners as comprehensively as this one Nor are there any other books with such a
 rich selection of tools readily available for practitioners It must belong in every TESOL professional's library Andrea

Culture Well Being and Urban Living Part IV AI Driven Creativity Applications and Challenges AI in Industry Automation and Robotics Human Centered AI and Machine Learning Technologies The Dynamics of Opportunity in America Irwin Kirsch, Henry Braun, 2016-01-22 Across the country our children are beginning life from very different starting points Some have aspirations and believe they can be achieved For too many others aspirations are tempered if not dashed by the sobering realities of everyday life These different starting points place children on distinctly different trajectories of growth and development ultimately leading to vastly different adult outcomes How did we get to a place where circumstances of birth have become so determinative And what must we do within communities and across our country to better equalize opportunity for more Americans both young and old The editors of this volume contend that if as a nation we do nothing then we will continue to drift apart placing an unsustainable strain on the nation s social fabric and the character of its democracy Consequently understanding the dynamics governing the distribution and transmission of opportunity and transforming this understanding into policies and programs is critical for not only the life outcomes of individual Americans and their children but also the country as a whole The goal of Educational Testing Service s Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action and how best to do so This volume contains 14 chapters including an epilogue written by leaders from a range of fields including education economics demography and political science Collectively they not only illuminate key aspects of the problem but also offer suggestions of what policies programs and changes in practices could begin to reverse the trends we are seeing Written in an engaging style this volume constitutes an essential foundation for informed discussion and strategic analysis
