## June 2013 Physical Sciences Memo Grade12:

Scientific and Technical Aerospace Reports ,1987 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database      **Official Gazette of the United States Patent and Trademark Office** ,2005      **Bodies, Technologies and Methods** Phil Jones,2020-04-14 This book examines how different technologies can be used to enhance research methods in the social sciences and humanities The boundary between the body and the digital has become increasingly blurred in recent years due to the rise of technologies that capture and reshape our embodied selves New technologies all too often reflect the attitudes of the privileged white men who dominate the tech sector This book thus in part considers how critical researchers can employ new technologies while challenging some of the problematic assumptions that underpin their design It also includes a series of case studies that examine the dynamic use of different techniques to explore key questions around the intersection of embodiment and the digital With a playful experimental approach to conducting research today this book offers new cutting edge methods that respond to the potential of different technologies It will be invaluable reading for undergraduate and post graduate students of social sciences and humanities to explore ways in which this approach can bring new insights to a range of interdisciplinary research questions      Peace in the Mountains Tom Weyant,2023-08-18 Peace in the Mountains analyzes student activism at the University of Pittsburgh Ohio University and West Virginia University during the Vietnam War era Drawing from a wide variety of sources including memoirs periodicals archival manuscript collections and college newspapers such as The Pitt News author Thomas Weyant tracks the dynamics of a student led campus response to the war in real time and outside the purview of the national media Along the way he musters evidence for an emerging social and political conscience among the student bodies of northern Appalachia citing politics on campus visions of patriotism and dissent campus citizenship antiwar activism and draft resistance campus issues and civil rights as major sites of contention and exploration Through this regional chronicle of student activism during the Vietnam War era Weyant holds to one reoccurring and unifying theme citizenship His account shows that political activism and civic engagement were by no means reserved to students at elite colleges on the contrary Appalachian youth were giving voice to the most vexing questions of local and national responsibility student and citizen identity and the role of the university in civil society Rich in primary source material from student op eds to administrative documents Peace in the Mountains draws a new map of student activism in the 1960s and early 1970s Weyant s study is a thoughtful and engaging addition to both Appalachian studies and the historiography of the Vietnam War era and is sure to appeal not only to specialists Appalachian scholars political historians political scientists and sociologists but to college students and general readers as well      The Routledge Companion to Medieval Iconography Colum Hourihane,2016-12-19 Sometimes enjoying considerable favor sometimes less iconography has been an essential element in medieval art historical studies since the

beginning of the discipline Some of the greatest art historians including M le Warburg Panofsky Morey and Schapiro have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell Over the last thirty or so years scholarship has seen the meaning and methodologies of the term considerably broadened This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies the third and largest section looks at some of the major themes in medieval art Taken together the three sections include thirty eight chapters each of which deals with an individual topic An introduction historiographical evaluation and bibliography accompany the individual essays The authors are recognized experts in the field and each essay includes original analyses and or case studies which will hopefully open the field for future research Congressional Record United States.
