

## SOLE-SEARCHING

- 1 Sneakers are casual shoes also known as 'takkies'. Today, these shoes are a popular choice of footwear worn by all types of people throughout the world.
- 2 The first sneaker was introduced in the 1860s in the form of a specialised running shoe made of leather and spikes. By 1892 the United States Rubber Company modified the design to include a rubber sole. These shoes were mass-produced and nicknamed 'sneakers', because of their soft, noiseless rubber soles. 5
- 3 Today, the sneaker culture is worth billions of rands worldwide. The market continues to grow rapidly. A 2017 report released by Transparency Market Research expects the global footwear market to reach over 3 trillion rands in value by 2020. It is impossible to deny that what was once street culture has turned into a mass consumer movement. 10
- 4 The market is driven by people known as sneakerheads, who collect, trade or admire sneakers as a hobby. It is also promoted by hip-hop culture and ordinary people who love this type of footwear. The sneaker culture has risen from humble, functional beginnings to the fashion trend it is today. 15
- 5 Converse, a sneaker manufacturer, was the first company to get celebrities to endorse their products. They set a marketing standard in the world of athletic footwear by adding the name of celebrity basketball player, Chuck Taylor, to the ankle patch of their All Star sneakers. 20
- 6 What began as a subculture is now universal and the sneaker industry's growth can be plotted alongside the rise of a music culture from the 1950s, when famous musicians wore this type of footwear. It exploded with the commercialisation of hip-hop. A turning point was the release of rapper RUN-DMC's track, *My Adidas*. This signified the beginning of sneaker **endorsement**' deals for non-athletes and what rappers were started to become popular among the youth. 25
- 7 'From a young age it has always been about having the coolest sneaker but now it is also about the culture,' explained Thabo and Thabiso Modiselle, founders of culture and sneaker site, *YoMzansi*. 'We were influenced by streetwear, music and hip-hop movies, and started studying the culture and educating ourselves on major sneaker brands.' 30

**Involvement in High-Stakes Language Testing** Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e.g. the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students *Conference proceedings.
