in the first half of the twentieth century Between 1910 and 1949 a number of British publishers writers and illustrators included children s literature in their efforts to make Britain a progressive egalitarian and modern society Some came from privileged backgrounds others from the poorest parts of the poorest cities in the land some belonged to the metropolitan intelligentsia or bohemia others were working class autodidacts but all sought to use writing for children and young people to create activists visionaries and leaders among the rising generation Together they produced a significant number of both politically and aesthetically radical publications for children and young people This radical children s literature was designed to ignite and underpin the work of making a new Britain for a new kind of Briton While there are many dedicated studies of children s literature and childrens writers working in other periods the years 1910 1949 have previously received little critical attention In this study Kimberley Reynolds shows that the accepted characterization of interwar children s literature as retreatist anti modernist and apolitical is too sweeping and that the relationship between children s literature and modernism left wing politics and progressive education has been neglected *Intercultural Crisis Communication*

The Gamification of Language Learning Luis Ángel Gil-Acirón, 2025-03-14 This volume awarded the V Professor Jos Romera Castillo Prize for Philological Research includes a thorough study conducted in the United States on the use of gamification: application of game mechanics and dynamics in non-game contexts in the language classroom. The work is firmly grounded on an exhaustive psychopedagogical and neuroscientific foundation as a basis for the design, implementation and evaluation of a language learning gamification program. Additionally, it generates an understanding of the influence of gamification on second language learners' motivation, attention, engagement and volunteering, self-confidence and language anxiety, providing the reader with the tools to critically address the big question: educational gamification: science or fad? Este volumen galardonado con el V Premio de Investigación Filológica Profesor Jos Romera Castillo recoge un concienzudo estudio llevado a cabo en Estados Unidos sobre el uso de gamificación: aplicación de mecánicas y dinámicas propias de los juegos en contextos no lúdicos en el aula de idiomas. El trabajo parte de una exhaustiva fundamentación psicopedagógica y neurocientífica como mimbre para el diseño, la implementación y la evaluación de un programa gamificado para el aprendizaje de lenguas. Asimismo, genera conocimiento sobre su influencia en la motivación, atención, participación y voluntariedad, autoconfianza y ansiedad lingüística de estudiantes de segunda lengua, proporcionando al lector las herramientas para abordar críticamente la gran pregunta: gamificación educativa: ciencia o tendencia.

The Complete Illustrated Book of Development Definitions Harvey S.

Moskowitz, Carl G. Lindbloom, David Listokin, Richard Preiss, Dwight Merriam, 2017-07-05 The latest edition of *The Illustrated Book of Development Definitions* breaks new ground. It addresses traditional and new planning problems: natural and industrial disasters such as hurricanes and oil spills; new housing types and living accommodations; changes in urban design and practice like new urbanism; sustainability; pedestrian and bicycle friendly environments; and more. Joining Harvey S. Moskowitz and Carl G. Lindbloom, authors of the first three editions, are two prominent nationally known planners: David Listokin and Richard Preiss. Attorney Dwight H. Merriam adds legal annotations to almost all 2,276 definitions. These citations from court decisions bridge the gap between land use theory and real world application, bringing a new dimension to this edition. More than 20,000 copies of previous editions were sold over four decades to professionals and government representatives such as members of planning and zoning boards and municipal governing bodies. This first revision in ten years updates what is widely acknowledged as an essential standard reference for planners. *Ethnographies of U.S.*

Empire Carole McGranahan, John F. Collins, 2018-08-02 How do we live in and with empire? The contributors to *Ethnographies of U.S. Empire* pursue this question by examining empire as an unequally shared present. Here, empire stands as an entrenched, if often invisible, part of everyday life, central to making and remaking a world in which it is too often presented as an aberration rather than as a structuring condition. This volume presents scholarship from across U.S. imperial formations: settler colonialism; overseas territories; communities impacted by U.S. military action or political intervention; Cold War alliances and fissures; and most recently, new forms of U.S. empire after 9/11. From the Mohawk Nation to Korea and the Philippines, to Iraq and the hills of New Jersey, the contributors show how a methodological and theoretical commitment to ethnography sharpens all of our understandings of the novel and timeworn ways people live, thrive, and resist in the imperial present.
