80 Recipes For Beauty Face Masks Evelyn, In this book I tried to create a useful guide where you will find not only a list of face mask recipes but also all the information you need to create your own. That's right. No one can actually cover all the combinations; they are probably unlimited. Wouldn't it be much more convenient to combine ingredients and make your own recipes? This is why I included two lists at the end of the book. The first one is a list of several skin problems and needs, at least the most common. Next to each skin issue, you will find some ingredients with the suitable properties. For example, Puffy eyes: cucumber, chamomile, avocado. This way you can easily find what meets your special needs. Next follows another list which includes the ingredients that have been used in the recipes in this book. Next to each ingredient, you will find some of their most beneficial nutrients, as well as how they benefit the skin. Easy, quick, economic, and most of all, natural and safe. After all, could you apply on your face something safer than your food?

Strong, 2015-06-15 Three time Ninkasi Award winner Gordon Strong has been a towering presence in the homebrewing community for many years. Now this Grandmaster Beer Judge invites you on a guided tour through over 100 of his own as brewed recipes. While discussing the fundamentals of homebrewing, the author also invites you to develop your own style with tips on recipe formulation and ingredients substitutions. In the initial chapters, Strong covers the basics of brewing, summarizing a variety of processes relating to water adjustment, mashing, and hopping. The author concisely and clearly lays out techniques like infusion mashing, step infusion, decoction, cereal mash, and hybrid mash schedules. Get the rundown on adding hops in the boil, first wort hopping, hop bursting, whirlpool, and steeping hopbacks, and dry hopping. Learn the basics of recipe design and how to think about style recipe profiles, know the intensity of your ingredients, and what contributes to a balanced recipe, and how that might differ between styles. Do you know what makes a balanced IPA versus a lambic? Make intelligent substitutions with ingredients you have and become comfortable scaling recipes, accounting for volume losses, mash efficiencies, and differences in hop utilization. The recipes themselves are tried and tested, provided by the author as he has brewed them, including specific advice and sensory profiles, plus insights into the creative process behind each recipe. There are myriad IPAs and everyday styles for easy drinking, such as pale ale, blonde ale, wheat beer, altbier, Kolsch, and brown and amber ales. Classic and modern lager recipes include Vienna, dunkel, Maibock, Oktoberfest bock, and schwarzbier. Dark beers are plentiful, with dark milds, porters, and stouts, making a nod to both American and classic English versions. Stronger fare is on offer with barleywine, strong ales, and winter warmers. Lovers of Belgian beer will also find an eclectic selection of traditional recipes, as well as some saisons and biere de garde. For when the creative juices are really flowing, the author includes a collection of experimental and historical recipes that may not find a place in any set style: pale, mild, or dubbel, American brown ale, anyone, but are delicious nonetheless.
