Vinovskis, 2008-11-15 One of the most popular and enduring legacies of President Lyndon B Johnson's Great Society programs Project Head Start continues to support young children of low income families close to one million annually by providing a range of developmental and educational services Yet as Head Start reaches its fortieth anniversary debates over the function and scope of this federal program persist Although the program's importance is unquestioned across party lines the direction of its future whether toward a greater focus on school readiness and literacy or the continuation of a holistic approach remains a point of contention Policymakers proposing to reform Head Start often invoke its origins to justify their position but until now no comprehensive political history of the program has existed Maris A Vinovskis here provides an in depth look at the nation's largest and best known yet politically challenged early education program The Birth of Head Start sets the record straight on the program's intended aims documenting key decisions made during its formative years While previous accounts of Head Start have neglected the contributions of important participants such as federal education officials and members of Congress Vinovskis's history is the first to consider the relationship between politics and policymaking and how this interaction has shaped the program This thorough and incisive book will be essential for policymakers and legislators interested in prekindergarten education and will inform future discussions on early intervention services for disadvantaged children **Continually Working** Crystal Marie Moten, 2023-03-15 Continually Working tells the stories of Black working women who resisted employment inequality in Milwaukee Wisconsin from the 1940s to the 1970s The book explores the job related activism of Black Midwestern working women and uncovers the political and intellectual strategies they used to critique and resist employment discrimination dismantle unjust structures and transform their lives and the lives of those in their community Moten emphasizes the ways in which Black women transformed the urban landscape by simultaneously occupying spaces from which they had been historically excluded and creating their own spaces Black women refused to be marginalized within the historically white and middle class Milwaukee Young Women's Christian Association MYWCA an association whose mission centered on supporting women in urban areas Black women forged interracial relationships within this organization and made it not without much

conflict and struggle one of the most socially progressive organizations in the city When Black women could not integrate historically white institutions they created their own They established financial and educational institutions such as Pressley School of Beauty Culture which beautician Mattie Pressley DeWese opened in 1946 as a result of segregation in the beauty training industry This school served economic educational and community development purposes as well as created economic opportunities for Black women Historically and contemporarily Milwaukee has been and is still known as one of the most segregated cities in the nation Black women have always contested urban inequality by making space for themselves and others on the margins In so doing they have transformed both the urban landscape and urban history **Educational**
