Grade 11 2014 Consumer Studies Memorandum November:

Consumer Protection and Online Auction Platforms Dr Christine Riefa, 2015-08-28 This book explores the legal classification of online auction sites across a range of countries in Europe. The research focusses on the protection of consumers' economic rights and highlights the shortcomings that the law struggles to control. The study includes empirical studies conducted on 28 online auction websites in the UK and provides insights into how technical measures as well as a tighter legislative framework could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves.

Financial Justice Larry Kirsch, Robert N. Mayer, 2013-05-09 This provocative and accessible narrative recounts the inside story of how a broad-based people's campaign was mobilized and subsequently succeeded in pushing Congress to create a consumer financial regulator with clout. What would Congress do if anything to tame Wall Street and the nation's lenders following the financial meltdown of 2008? This book tells the true story of how an alliance of consumer civil rights, labor, fair lending, and other progressive groups emerged to effectively challenge Wall Street and its official protectors and to win substantial new legislative reforms. Actions that resulted in the Dodd-Frank Act and its path-breaking Consumer Financial Protection Bureau (CFPB). Based largely on in-depth interviews with the leading activists involved in the campaign, *Financial Justice: The People's Campaign to Stop Lender Abuse* taps into the world of contemporary citizen movements to present evidence into the conditions that determine the success and failure of social movement campaigns. It goes well beyond general global variables such as effective management to show how the formal and informal rules adopted by a campaign can serve to preclude fragmentation and incoherence.

The Internet Trap Matthew Hindman, 2020-11-10 Why there is no such thing as a free audience in today's attention economy. The internet was supposed to fragment audiences and make media monopolies impossible. Instead, behemoths like Google and Facebook now dominate the time we spend online and grab all the profits. This provocative and timely book sheds light on the stunning rise of the digital giants and the online struggles of nearly everyone else and reveals what small players can do to survive in a game that is rigged against them. Challenging some of the most enduring myths of digital life, Matthew Hindman explains why net neutrality alone is no guarantee of an open internet and demonstrates what it really takes to grow a digital audience in today's competitive online economy.
