supplement to An Introduction to Grassland Agriculture Volume I *The effect of land inheritance on youth employment and migration decisions: Evidence from rural Ethiopia* Kosec, Katrina, Ghebru, Hosaena, Holtemeyer, Brian, Mueller, Valerie, Schmidt, Emily, 2017-03-28 In Ethiopia there are two binding forces push and pull that deserve attention when it comes to youth occupational and spatial mobility choices and the national land use and transfer policy On the one hand the fact that the land rental market in Ethiopia is supply constrained due to market and policy distortions marginalizes youth and serves as a push factor leading them to look elsewhere for a livelihood strategy On the other hand the regulatory conditions and restrictions attached to land use and inheritance rights may serve as a pull factor and force youth to be tied to the rural and or farming sector Our study thus aims to explore how youth land access both inheritance and market based affects their migration and employment decisions We explore this question in the context of rural Ethiopia using panel data from 2010 and 2014 We find that larger expected land inheritances significantly lower the likelihood of long distance permanent migration and of permanent migration to urban areas during this time Inheriting more land is also associated with a significantly higher likelihood of employment in agriculture and a lower likelihood of employment in the nonagricultural sector Conversely the decision to attend school is unaffected These results appear to be most heavily driven by males and by the older half of our youth sample We also find several mediating factors matter Land inheritance plays a much more pronounced role in predicting rural to urban permanent migration and nonagricultural sector employment in areas with less vibrant land markets and in relatively remote areas those far from major urban centers Overall the results reaffirm the notion that push factors dominate pull factors in dictating occupational and migration decisions in Ethiopia and highlight youth preferences to use migration or non agricultural employment as a last resort after exhausting other means of accessing land such as temporary land rental *Title 7 Agriculture Part 2000 to End (Revised as of January 1, 2014)* Office of The Federal Register, Enhanced by IntraWEB, LLC, 2014 The Code of Federal Regulations Title 7 contains the codified Federal laws and regulations that are in effect as of the date of the publication pertaining to agriculture Algae Biomass: Characteristics and Applications Katarzyna Chojnacka, Piotr Pawel Wieczorek, Grzegorz Schroeder, Izabela Michalak, 2018-07-09 This book is a compendium of knowledge on the useful properties of algae in the context of application as a useful component of innovative natural products It presents all aspects of industrial applications of macroalgae biomass derived from the natural environment Despite many interesting characteristics algae are still regarded as undervalued raw material therefore present in the following chapters are not only environmental benefits arising from the development of excessive algal biomass but also the distribution and biology of algae in natural conditions in reservoirs methods of obtaining extracts from biomass of algae for industrial purposes Furthermore it also includes topics such as the use of biomass and algae extracts for the industrial purposes in animal breeding and for agricultural purposes as well as the economic aspects of algae biomass harvesting for industrial purposes The book is intended for a wide audience interested in new methods of obtaining the
