Economic Growth and the Middle Class in an Economy in Transition Zoya Nissanov, 2017-01-24 This book studies the evolution of the middle class in Russia after the fall of the Soviet Union Using data from the RLMS Russian Longitudinal Monitoring Survey the volume covers the period of transition 1991 2008 during which many fundamental economic reforms were implemented The first part of the book is devoted to a discussion of the concept of middle class and a description of the economic situation in Russia during the transition period Particular attention is given to variations in the distribution of Russian incomes and the estimated importance of the middle class The second part of the book focuses on the link between the middle class and income bipolarization The third and last section of the book uses the semiparametric mixture model to discover how many different groups may be derived from the income distribution in Russia as well as what the main socio economic and demographic characteristics of those groups are The mobility of households into and out of the middle class during the transition period is also studied in hopes of determining the factors

that contribute to such mobility Using rigorous empirical methods this volume sheds light on a relatively unstudied economic group and provides insight for countries which are about to enter a transition period As such this book will be of great interest to researchers in economics and inequality as well as professionals and practitioners working with international organizations Handbook of the Economics of Education ,2023-01-18 The Handbook of the Economics of Education describes the research frontier in key topical areas and sets the agenda for further work Modern analysis in the economics of education has made tremendous strides in understanding fundamental issues related to the production of human capital and the impact of varying institutional features of education systems By bringing together some of the world s leading scholars this volume provides a unique view of scholarship in the area The international perspectives of the editors Hanushek at Stanford Machin at LSE and Woessmann at Munich leads to a volume with something for all researchers Topics range from the economics of early childhood education to inequality in society to cash transfers in developing countries Identification and evaluation of the state of the art Clear descriptions of the meaning of existing research and the most likely avenues for the future Insights into how policy interventions in education can help or hurt human capital outcomes *A New U* Ryan Craig,2018-09-11 Every year the cost of a four year degree goes up and the value goes down But for many students there s a better answer So many things are getting faster and cheaper Movies stream into your living room without ticket or concession stand costs The world s libraries are at your fingertips instantly and for free So why is a college education the only thing that seems immune to change Colleges and universities operate much as they did 40 years ago with one major exception tuition expenses have risen dramatically What s more earning a degree takes longer than ever before with the average time to graduate now over five years As a result graduates often struggle with enormous debt burdens Even worse they often find that degrees did not prepare them to obtain and succeed at good jobs in growing sectors of the economy While many learners today would thrive with an efficient and affordable postsecondary education the slow and pricey road to a bachelor s degree is starkly the opposite In *A New U Faster Cheaper Alternatives to College* Ryan Craig documents the early days of a revolution that will transform or make obsolete many colleges and universities Alternative routes to great first jobs that do not involve a bachelor s degree are sprouting up all over the place Bootcamps income share programs apprenticeships and staffing models are attractive alternatives to great jobs in numerous growing sectors of the economy coding healthcare sales digital marketing finance and accounting insurance and data analytics *A New U* is the first roadmap to these groundbreaking programs which will lead to more student choice better matches with employers higher return on investment of cost and time and stronger economic growth Generation Jobless? P. Vogel,2015-03-05 Offering guidance on the opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change It directs the youth to become job creators not job seekers and to approach the corporate and political worlds with an entrepreneurial mind set **Virtue as Identity** Aleksandar Fatic,2016-07-11 Virtue as Identity

offers a study of how virtue is learned and identity acquired through the selection and internalization of values. A large part of this process is externally imposed through culture. Another perhaps more important part of the process is the result of individual and collective sensibilities. The book emphasizes the role of emotions and emotional sensibility in our choice of values. The book reaffirms traditional morality as the foundation of our individual and collective identities. The author argues that emotions as well as rational decisions guide the value choices we make and the ideals of character that we presuppose on a political level as much as they do in our private lives. Thus the societies we live in are a reflection of our identities or the identities of the majority. This opens up radical questions about the identities of the dissenting minorities, the proper concept of a moral or value community and the real reach and value of tolerance in modern democracy.

Innovation in China

William H.A. Johnson, 2015-07-22. The word innovation is often used today regarding China as if the concept were new to the Eastern country. Most people know however that China was a juggernaut in creating new technologies and at one time was the innovation king of the world but that was at least seven centuries ago. Today the great oriental power is attempting once again to take the throne of innovation for its own. This desire to usurp the throne which had been diligently taken by the West during the Scientific Revolution has placed an almost unrealistic emphasis on innovation. In *Innovation in China: The Tail of the Dragon*, the author explores the issues and actors involved in making innovation the emphasis in China. He uses a simple systems model of innovation and various perceptual lenses. The lenses are aimed at the historical economic, political, legal, educational and cultural elements of an innovation based society. After reading the book, the reader will understand more about how innovation is happening in China and by whom. More importantly, the reader will begin a journey of learning more about where the country is going as it relentlessly continues its drive to create an innovation based society and to become once again in terms appropriate to its history, the Emperor of Innovation.

Behavioral-Based Interventions for

Improving Public Policies. Mihaila, Viorel, 2020-11-13. Behavioral based intervention in designing public policies has become an important field of study in recent years with empirical studies devoted to analyzing how to design better policies from the fields of behavioral economics, social psychology, sociology, anthropology, economy, political science, design, human centered design and design thinking or effective state and non state bureaucracies throughout the world. Therefore it is important to explore this original research on behavioral policymaking that starts from the development of policies following all the way through to the implementation of them and the many stages in between. Current research on public policy seeks to provide insights and support leadership in public administration within the framework of behavioral science. *Behavioral Based Interventions for Improving Public Policies* aims to provide a glimpse of the theoretical frameworks in use and some of the latest practical reported research findings for behavioral based intervention in designing public policies. The chapters will explore policymaking knowledge applied in different types of communities and cultural environments. While highlighting topic areas that include policymaking, policy infrastructure and policy adoption, this book is ideally intended for professionals.

and researchers working in the fields of policymaking administrative sciences and management behavioral economics social psychology sociology anthropology economy or political science along with practitioners stakeholders academicians and students

Law and Justice around the World Mikaila Mariel Lemonik Arthur, 2020-02-25 Law and Justice around the World is designed to introduce students to comparative law and justice including cross national variations in legal and justice systems as well as global and international justice The book draws students into critical discussions of justice around the world today by taking a broad perspective on law and justice rather than limiting its focus to criminal justice systems examining topics of global concern including governance elections environmental regulations migration and refugee status family law and others focusing on a diverse set of global examples from Europe North America East Asia and especially the global south and comparing the United States law and justice system to these other nations continuing to cover core topics such as crime law enforcement criminal courts and punishment including chapter goals to define learning outcomes sharing case studies to help students apply concepts to real life issues Instructor resources include discussion questions suggested readings films and web resources a test bank and chapter by chapter PowerPoint slides with full color maps and graphics By widening the comparative lens to include nations that are often completely ignored in research and teaching the book paints a more realistic portrait of the different ways in which countries define and pursue justice in a globalized interconnected world
