SHORT ANSWER TYPE QUESTIONS

Q1. Write the following sets in the roster form:

- (i) $A = \{x : x \in \mathbb{R}, 2x + 11 = 15\}$ (ii) $B = \{x \mid x^2 = x, x \in \mathbb{R}\}$ (iii) $C = \{x \mid x \text{ is a positive factor of a prime number } P\}$

Sol. (i) Given that: $A = \{x : x \in \mathbb{R}, 2x + 11 = 15\}$
 $\therefore 2x + 11 = 15 \Rightarrow 2x = 15 - 11 \Rightarrow 2x = 4 \Rightarrow x = 2$
 Hence, $A = \{2\}$

(ii) Given that: $B = \{x \mid x^2 = x, x \in \mathbb{R}\}$
 $\therefore x^2 = x \Rightarrow x^2 - x = 0 \Rightarrow x(x - 1) = 0$
 $\therefore x = 0, x = 1$
 Hence, $B = \{0, 1\}$

(iii) Given that: $C = \{x \mid x \text{ is a positive factor of a prime number } P\}$
 So, the positive factors of prime number P are 1 and P .
 Hence, $C = \{1, P\}$

Q2. Write the following sets in the roster form:

- (i) $D = \{t \mid t^3 = 1, t \in \mathbb{R}\}$ (ii) $E = \left\{w \mid \frac{w-2}{w+3} = 3, w \in \mathbb{R}\right\}$

(iii) $F = \{x \mid x^4 - 5x^2 + 6 = 0, x \in \mathbb{R}\}$

Sol. (i) Given that: $D = \{t \mid t^3 = 1, t \in \mathbb{R}\}$
 $\therefore t^3 = 1$
 $\Rightarrow t^3 - 1 = 0 \Rightarrow t(t^2 - 1) = 0$
 $\Rightarrow t(t-1)(t+1) = 0 \Rightarrow t = 0, t = 1, t = -1$
 Hence, $D = \{-1, 0, 1\}$

(ii) Given that: $E = \left\{w \mid \frac{w-2}{w+3} = 3, w \in \mathbb{R}\right\}$

$\therefore \frac{w-2}{w+3} = 3$
 $\Rightarrow 3w + 9 = w - 2 \Rightarrow 3w - w = -2 - 9$
 $\Rightarrow 2w = -11 \Rightarrow w = \frac{-11}{2} \in \mathbb{R}$

Hence, $w = \left\{\frac{-11}{2}\right\}$

The purpose of this report is to provide technical information about the 1996 State Assessment in Mathematics. It provides a description of the design for the State Assessment and gives an overview of the steps involved in the implementation of the program from the planning stages through to the analysis and reporting of the data. The report describes in detail the development of the cognitive and background questions, the field procedures, the creation of the database and data products for analysis, and the methods and procedures used for sampling, analysis, and reporting. It does not provide the results of the assessment; rather, it provides information on how those results were derived. Chapters include: 1. Overview, The Design, Implementation, and Analysis of the 1996 State Assessment Program in Mathematics; 2. Developing the Mathematics Objectives, Cognitive Items, Background Questions, and Assessment Instruments; 3. Sample Design and Selection; 4. State and School Cooperation and Field Administration; 5. Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria Anders Jönsson,Frans Prins,2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions

Common Core Nicholas Tampio, 2018-03-01 How the Common Core standardizes our kids education and how it threatens our democracy The Common Core State Standards Initiative is one of the most controversial pieces of education policy to emerge in decades Detailing what and when K 12 students should be taught it has led to expensive reforms and displaced other valuable ways to educate children In this nuanced and provocative book Nicholas Tampio argues that though national standards can raise the education bar for some students the democratic costs outweigh the benefits To make his case Tampio describes the history philosophy content and controversy surrounding the Common Core standards for English language arts and math He also explains and critiques the

Next Generation Science Standards the Advanced Placement US History curriculum framework and the National Sexuality Education Standards Though each set of standards has admirable elements Tampo asserts that democracies should disperse education authority rather than entrust one political or pedagogical faction to decide the country's entire philosophy of education Ultimately this lively and accessible book presents a compelling case that the greater threat to democratic education comes from centralized government control rather than from local education authorities
