**Social Im/mobilities in Africa** Joël Noret, 2019-11-08 Grounded in both theory and ethnography this volume insists on taking social positionality seriously when accounting for Africa's current age of polarizing wealth. To this end the book advocates a multidimensional view of African societies in which social positions consist of a variety of intersecting social powers or capitals including wealth, education, social relationships, religion, ethnicity and others. Accordingly the notion of social im/mobilities emphasizes the complexities of current changes taking us beyond the prism of a one dimensional social ladder for social moves cannot always be apprehended through the binaries of gains and losses. A Practical Guide to Managing Tourist Experiences Isabelle Frochot, 2021-12-30 This book provides students with a concise and practical guide that presents key understandings of the tourist experience and provides strategic guidance on how to develop an impactful and memorable experience. Chapters follow the path of the tourist journey firstly exploring consumer behaviour, the decision making process and the tourist's need for escape and providing insights into the strategic implications of consumer behaviour and the concept of immersion in tourism. Subsequent chapters look at the impact of experiences, consider trends in tourism experience such as wellness, sustainability, authenticity and fantasy and provide experience design models. The final chapter offers a unique ten step approach to designing impactful and memorable tourist experiences. Highly practical and engaging this book is packed full of case studies and examples from forest bathing in Finland to truffle hunting in Italy as well as tools and exercises to guide the design process. This book offers students a full understanding of how the experience is lived from the tourist perspective, how tourism providers can manage that process and how to develop successful experimental marketing interventions. This is essential reading for all tourism students and future tourism managers.

OECD Economic Surveys: Luxembourg 2019 OECD, 2019-07-10 Luxembourg is one of the most prosperous economies in the OECD. However prosperity and quality of life cannot be taken for granted. This Survey focuses on three main challenges. The first concerns housing, strong population growth and supply constraints have made prices surge which worsens affordability and creates vulnerabilities for some households and some banks. **Feminism Against Progress** Mary Harrington, 2023-03-02 An exhilarating read. New Statesman. In *Feminism Against Progress* Mary Harrington argues that the industrial era faith in progress is turning against all but a tiny elite of women. Women's liberation was less the result of human moral progress than an effect of the material consequences of the Industrial Revolution. We've now left the industrial era for the age of AI, biotech and all pervasive computing. As a result technology is liberating us from natural limits and embodied sex differences. Although this shift benefits a small class of successful professional women it also makes it easier to commodify women's bodies, human intimacy and female reproductive abilities. This is a stark warning against a dystopian future whereby poor women become little more than convenient sources of body parts to be harvested and wombs to be rented by the rich. Progress has now stopped benefiting the majority of women and only a feminism that is sceptical of it can

truly defend female interests in the 21st century  
Henry Pettus Randall, 1976
