Mathematics Curriculum in Pacific Rim Countries - China, Japan, Korea, and Singapore Zalman Usiskin, Edwin Willmore, 2008-09-01 This volume contains the proceedings of the First International Curriculum Conference sponsored by the Center for the Study of Mathematics Curriculum CSMC The CSMC is one of the National Science Foundation Centers for Learning and Teaching Award No ESI 0333879 The countries China Japan Korea and Singapore in alphabetical order which also happens to be the order of their populations have each been in the news because of their performance on international tests and or their economic performance and potential They also have centralized education ministries that create a single mathematics curriculum framework followed in the entire country In all these countries curricula are differentiated for students with different interests usually around Grade 10 or 11 We think the reader will agree that the papers are of very high quality befitting the standing of the individuals who were invited but particularly notable for our international speakers because in three of these countries English is not the speaker s first language Following each paper we have included a short biography of the author s so that the reader can understand the perspective of the paper s author [Resources in Education](#), 1997

Schooling for Sustainable Development in Africa Heila Lotz-Sisitka, Overson Shumba, Justin Lupele, Di Wilmot, 2016-11-11 This book considers the scope and dynamics of Education for Sustainable Development ESD and learning in schools in Africa It explores the conditions and processes that support such learning and examines how ESD in schooling can improve the quality and relevance of education The quality of education has been defined internationally as a key concern for educational institutions around the world including schools in Africa The models of quality are often limited to performance based approaches and or inclusive approaches The contributions in this book show that there is more to a discussion on educational quality in Africa than performance success and or inclusion The chapters explain how ESD brings a new relevance to education in Africa and at the same time sounds the beginning of a new concept of quality education The volume presents a collection of experiences in creating and supporting quality learning processes through a variety of ESD practices [Syllabus of a Course in the Principles of Educational Administration](#) George Drayton Strayer, Edward Samuel
