Selected Readings in Mineral Economics F.J. Anderson,2013-10-22 Selected Readings in Mineral Economics reviews the economic principles of mineral investment activities and mining decisions Topics range from mineral reserves and exploration to the economics of mineral projects taxation issues and marketing and finance This text is comprised of 27 chapters After explaining the distinction between resources and reserves this book proposes a concept of mineral reserves The chapters that follow explore the conversion of resources into reserves through the exploration process while focusing on the flow from resources to reserves and metal production based on the concept of the monitoring curve along with the process of depletion and reserves replacement The next section illustrates the range of issues associated with rational project evaluation in the minerals sector considering the discounted cash flow techniques and option pricing as an approach to mine valuation The effects of Canada s tax system on the mineral supply process are then examined together with international mineral markets and finance This text concludes with a chapter that analyzes financing methods for large scale mining projects including innovative methods of debt finance involving risk sharing This book will be of interest to those working in the mining and metallurgical industries *Behavioral Science & Policy: Volume 2, Issue 1* Craig Fox,Sim B. Sitkin,2016-11-22 The success of nearly all public and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research However policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages of this new journal will become a meeting ground a place where scientists and non scientists can encounter clearly described behavioral research that can be put into action By design the scope of BSP is broad with topics spanning health care financial decisionmaking energy and the environment education and culture justice and ethics and work place practices Contributions will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision science and marketing The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does not advance a particular agenda or political perspective The first issue s contents follow Behavioral Science Policy vol 2 no 1 Table of Contents Editors Note Spotlight Pre Kindergarten Interventions American Policy on Early Childhood Education Development Many Programs Great Hopes Modest Prospects Ron Haskins Evidence for the Benefits of State Prekindergarten Programs Myth Misrepresentation Dale C Farran Mark W

Globalization at Risk Gary Clyde Hufbauer,Kati Suominen,2010-10-19 History has declared globalization the winner of the 20th century Globalization connected the world and created wealth unimaginable in the wake of the Second World War But the financial crisis of 2008 09 has now placed at risk the liberal economic policies behind globalization Engulfing the entire world the crisis gave new fuel to the skeptics of the benefits of economic integration Policy responses seem to favor anti globalizers New regulations could balkanize the global financial system while widespread protectionist impulses might undo the Doha Round Issues from climate change to national security may be used as convenient excuses to keep imports out keep jobs at home and to clamp down on global capital Will globalization triumph or perish in the 21st century What reforms make sense in the post crisis world International economists Gary Clyde Hufbauer and Kati Suominen argue that globalization has been a force of great good one that needs to be actively advanced and honed Drawing on the latest economic analyses they reveal the drivers and effects of global finance and trade lay out the key risks to globalization and offer a practical policy roadmap for managing the challenges while increasing the gains Vital reading for anyone in business finance foreign affairs or economics Globalization at Risk is sure to advance public debate on this defining issue of the 21st century The Review of Economics and Statistics ,1920 The purpose of the Review is to promote the collection criticism and interpretation of economic statistics with a view to making them more accurate and valuable than they are at present for business and scientific purposes *The Journal of the Society of Automotive Engineers* ,1919 **Journal of the Society of Automotive Engineers** ,1919 Vols 30 54 1932 46 issued in 2 separately paged sections General editorial section and a Transactions section Beginning in 1947 the Transactions section is continued as SAE quarterly transactions *Restoring Opportunity* Greg J. Duncan,Richard J. Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis

of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation **World Agricultural Economics and Rural Sociology**
Abstracts ,1995
