

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

It offers a unique account of the last fifteen years of nationalized railways in Britain and it sheds light on the current problems of privatized railway systems. This volume is divided into four complete and concise sections for complete study: Railways Under Labour 1974-1979, The Thatcher Revolution, British Rail in the 1980s, On the Threshold of Privatization. Running the Railways 1990-1994 and Responding to Privatization 1981-1997. Author Terry Gourvish is considered Britain's leading railway historian. The Publishers' Circular and Booksellers' Record, 1928 *The New York Times Index*, 1914 **English Electric Type 2 Bo-Bo 'Baby Deltic' Locomotives** Anthony P Sayer, 2025-03-30 The British Railways Pilot Scheme orders of 1955 included ten English Electric Type 2 diesel electric locomotives deploying Napier Deltic engines. These locomotives, more colloquially known as the Baby Deltics, were introduced into traffic during 1959 for use on the Eastern Region of British Railways. This book looks at the history of the Class 23s, making extensive use of available but previously unpublished archive material covering their introduction, technical idiosyncrasies, appearance, design and performance. Issues with the original Deltic engines were ultimately dealt with via a major rehabilitation exercise during the 1963-65 period, whilst various re-engining options were considered, including a new U-series English Electric high-speed engine design. The original Napier engines were ultimately retained. The work involved in the whole rehabilitation process is discussed in detail using internal English Electric archive material and forms a central focus of research. The fleet survived intact until 1968 when withdrawal commenced as a direct result of declining traffic levels across the UK, with successive National Traction Plans progressively selecting the less successful, non-standard and numerically challenged classes for removal from traffic. All ten locomotives were withdrawn by March 1971. Individual locomotive histories, allocations, fire and accident incidents, liveries and detail differences, storage and disposals are provided for each locomotive. **The Northwestern Miller**, 1901 **The Times Index**, 2003 Indexes the Times, Sunday Times and magazine Times literary supplement, Times educational supplement, Times educational supplement, Scotland and the Times higher education supplement. **The Spectator**, 1906 Catalogue of Copyright Entries, 1924 **The American Stationer and Office Outfitter**, 1917 **Catalog of Copyright Entries.
