I am looking for a job. I have been an electrical engineer for the past eight years. I arrived in the U.S. a few months ago, so I have not had much experience with American job interviews. I don't think my English is a problem because I have studied English since I was a child. In my country, I found a job right after I graduated from college. I stayed at the same job until I came here. The process of finding a job in the U.S. is a bit different. To learn about this process, I have used the Internet. I have also taken a course at a nearby college on how to prepare for an interview. So far, I have had three interviews, but I have not done well on them. I hope that each interview will help me do better on the next one, and soon I hope to find a good job.
