Grandeur Et Servitude Coloniales:

Grandeur Et Servitude Coloniales Sarraut Albert Sarraut, 2016 **Grandeur et servitude coloniales** Albert Sarraut, 1931 **Grandeur et servitude coloniales** Albert Sarraut, 2012-09-01 Albert Sarraut fut l'un des maîtres penseurs du colonialisme de la période de l'entre-deux guerres. Cet ouvrage de 1931 est l'un des meilleurs exemples de la justification du colonialisme français. Il touche tous les impératifs coloniaux de la France du tournant du siècle aux débuts de la décolonisation. C'est essentiellement Sarraut qui façonna le langage avec lequel les Français parlaient de leur empire colonial.

Race in France Herrick Chapman, Laura Levine Frader, 2004 Scholars across disciplines on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France. These original essays bring together in one volume new work in history, sociology, anthropology, political science, and legal studies. Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners, Jews, immigrants, and colonial people. Several authors also examine efforts to combat racism since the 1970s.

Assimilation and Association in French Colonial Theory, 1890-1914 Raymond F. Betts, 2005-01-01 Until the close of the nineteenth century, French colonial theory was based on the idea of assimilation, which gave France the responsibility for civilizing its colonies by absorbing them administratively and culturally. By the turn of the twentieth century, this idea had given way to the theory of association, which held that France's new empire could be better served by a more flexible policy in which the colonized become partners with France in the colonial project. Raymond F. Betts examines the pivotal shift in colonial theory within the metropole, the debate that it generated, and its intellectual origins. A landmark book in the field of French colonial theory, *Assimilation and Association in French Colonial Theory, 1890-1914* has served as the central point of reference for every major colonial historian during the four decades since its original publication in 1961. Available in paperback for the first time with a new preface by the author, this edition will interest all students of colonialism and introduce many younger scholars to what remains the best and most original book in the field. Raymond F. Betts is a professor of history emeritus at the University of Kentucky and an expert in modern European imperialism. His many books include *Decolonization and A History of Popular Culture: More of Everything, Faster and Brighter*.

The African Colonial State in Comparative Perspective Crawford Young, 1994-01-01 In this comprehensive and original study, a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule, which left the continent with a singularly difficult legacy that is unique in modern history. Crawford Young proposes a new conception of the state, weighing the different characteristics of earlier European empires, including those of Holland, Portugal, England, and Venice, and distilling their common qualities. He then presents a concise and wide-ranging history of colonization in Africa from the era of construction through consolidation and decolonization. Young argues that several qualities combined to make the European

colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent

Race, Rights and Reform Sarah C. Dunstan, 2021-02-18 Sarah C Dunstan constructs a narrative of black struggles for rights and citizenship that spans most of the twentieth century encompassing a wide range of people and movements from France and the United States the French Caribbean and African colonies She explores how black scholars and activists grappled with the connections between culture race and citizenship and access to rights mapping African American and Francophone black intellectual collaborations from the Paris Peace Conference in 1919 to the March on Washington in 1963 Connecting the independent archives of black activist organizations within America and France with those of international institutions such as the League of Nations the United Nations and the Comintern Dunstan situates key black intellectuals in a transnational framework She reveals how questions of race and nation intersected across national and imperial borders and illuminates the ways in which black intellectuals simultaneously constituted and reconfigured notions of Western civilization

Time on a Human Scale Julian Wright, Allegra Fryxell, 2021-10-07 Time on a Human Scale offers an ambitious new assessment of how modern Europeans understood time and human experience through studies of politics art literature music and culture of Western Europe between the 1860s and 1930s

The Portrait and the Colonial Imaginary Simon Dell, 2020-02-26 French colonisers of the Third Republic claimed not to oppress but to liberate imagining they were spreading republican ideals to the colonies to make a Greater France In this book Simon Dell explores the various roles played by portraiture in this colonial imaginary Anyone interested in the history of colonial Africa will have encountered innumerable portraits of African elites produced during the first half of the twentieth century yet no book to date has focused on these ubiquitous images Dell analyses the production and dissemination of such portraits and situates them in a complex and conflicted field of representations Moving between European and African perspectives The Portrait and the Colonial Imaginary blends history with art history to provide insights into the larger processes that were transforming the French metropole and colonies during the early twentieth century This publication is GPRC labeled Guaranteed Peer Reviewed Content
