**Resources in Education**, 1997      *Secondary Classroom Management* Carol Simon Weinstein, 2003  
*Secondary Classroom Management* presents an introduction to classroom management in secondary schools  
 Written in a lively engaging conversational style it combines what research has to say about effective classroom management with knowledge culled from practice  
 This text focuses on real decisions made by real teachers as they manage the complex environment of the secondary classroom  
 The text integrates the thinking and the actual management practices of four real secondary school teachers into discussions of research based management principles  
 Readers come to know these teachers  
 We hear about the classes they teach and about the physical constraints of their rooms  
 We hear them reflect on their rules and routines and watch as they teach these rules and routines to students  
 We listen as they talk about motivating students and building community and as they discuss appropriate ways to deal with misbehavior  
*Secondary Classroom Management* is well organized and more comprehensive than many classroom management texts with chapters on building safer more caring classrooms working with families using time effectively motivation working with troubled students and violence prevention  
 It also addresses the managerial challenges involved in a variety of instructional formats such as recitations discussions and groupwork
