Anderson, 2012-04-02 An in depth look at the Chinese car industry that sheds new light on the delicate nature of China's planned economy China's unprecedented growth over the last three decades along with the recent financial crisis in the West has raised questions about the superiority of state led capitalism In *Designated Drivers* How China Plans to Dominate the Global Auto Industry G E Anderson a specialist in finance and Chinese political economics uses the auto industry to examine how China's industrial planning works and explores whether state involvement in the economy really is a winning formula for sustainable growth Bringing to light the strengths and weaknesses that define the Chinese economy Anderson finds that in some ways the government has become its own worst enemy unable to choose between industrial competitiveness and social stability While the economy is booming now evidence suggests that long term success is far from assured Tracing the evolution of the post Mao auto industry through thirteen case studies *Designated Drivers* raises the difficult questions about the future of China that few people have dared to ask Offers a unique insight into the Chinese economy through the lens of the auto industry Explores how successful the central government has been in spurring economic growth and the long terms costs of intervention Uses case studies to illustrate China's explosive growth over the last three decades A painstakingly researched analysis of the Chinese automobile industry *Designated Drivers* explains the risks and rewards inherent in doing business in China that anyone interested in or already working there need to understand

Foreign Direct Investment and Urban Growth in China Lei Wang, 2016-04-15 This book puts forward an institutional explanation of the recent dynamics of foreign direct investment FDI in China It argues that the concentration of FDI in the Chinese manufacturing economy since the beginning of this century is largely the result of China's entrepreneurial urban growth strategy which was in turn motivated by the overall political and fiscal structures of China and was facilitated by urban land use under the manipulation of municipalities By identifying the interactions between cross border capital flow national regulations and local responses this book not only provides a fresh understanding of China's FDI pattern from an urban perspective that has been rare among publications on similar topics but also sheds light on the drivers underlying China's rapid economic growth and its implications for sustainable development It also stands as a useful reference for other countries and regions that plan to launch their own state led development projects *Automobile Magazine*, 2006 [The Fast, the Fraudulent & the Fatal](#) Michael Bender, 2009-03-18 Stolen vehicles and stolen lives are abound in this dark and dangerous underground that has taken over our highways and streets all in the name of fun A fact filled assault on illegal street racing drifting stunting and even car shows often inundated with larceny deceit injuries and death Exam years of hands on real stories of theft fraud and the Fast and Fraudulent scene and what can be done to identify problem areas recover stolen vehicles and parts identify fraud save lives prevent injuries and protect property This internationally recognized expert has researched every angle of this scene packing pages with facts investigative techniques and solutions
