

HOW TO USE THIS MANUAL

This shop manual covers emission controlled motorcycles. Follow the Maintenance Schedule recommendations to ensure that the vehicle is always in peak operating condition and the emission levels are within the standards set by the U.S. Environmental Protection Agency (USA only). Performing the first scheduled maintenance is very important. It compensates for the initial wear that occurs during the break-in period.

Sections 1 through 3 apply to the whole motorcycle, while sections 4 through 18 describe parts of the motorcycle, grouped according to location.

Find the section you want on this page, then turn to the table of contents on page 1 of that section.

Most sections start with an assembly or system illustration and all the required specifications, torque values, general instructions, tools and troubleshooting for the section. The subsequent pages give detailed procedures for the section.

If you are not familiar with the XL500S, read the TECHNICAL FEATURES, section 19. TECHNICAL FEATURES of the XL500R are in section 23. If you don't know the source of the trouble, go to section 20, TROUBLESHOOTING.

Refer to the addendums at the back of the manual for 1980-1981 XL500S service information, and for information about the XL500R.
