Congressional Record United States. Congress, 1995 **How Capitalism Will Save Us** Steve Forbes, Elizabeth Ames, 2011-06-21 Has capitalism failed Is it fundamentally greedy and immoral enabling the rich to get richer Are free markets Darwinian places where the most ruthless crush smaller competitors where vital products and services are priced beyond the ability of many people to afford them Capitalism is the world's greatest economic success story It is the most effective way to provide for the needs of people and foster the democratic and moral values of a free society Yet the worst recession in decades has widely and understandably shaken people's faith in our system Even before the current crisis capitalism received a bad rap from a culture ambivalent about free markets and wealth creation This crisis of confidence is preventing a full recognition of how we got into the mess we're in today and why capitalism continues to be the best route to prosperity How Capitalism Will Save Us transcends labels such as conservative and liberal by showing how the economy really works When free people in free markets have energy to solve problems and meet the needs and wants of others they turn scarcity into abundance and develop the innovations that are the foremost drivers of economic growth The freedom of democratic capitalism is for example what enabled Henry Ford to take a plaything of the rich the car and transform it into something affordable to working people In the capitalist system economic growth doesn't mean more of the same grinding out a few more widgets every year It's about change to increase overall wealth and give more people the chance for a better life How to Save Your Planet One Object at a Time Tara Shine, 2020-04-16 an unpreachy guide free of jargon and full of often surprising information The Times Change starts at home In the office Change starts with you Your family Your friends Change starts with everyday things One object at a time Sometimes it can feel overwhelming thinking about all that needs to be done to save our planet This book is the antidote to that feeling Easy to read and easy to do here's all the information and inspiration you need to make a difference simply by making smart choices about everyday objects tasks and habits Environmental scientist Dr Tara Shine guides you from room to room and occasion to occasion with environmentally friendly solutions backed by science From swapping bottled soap to bars to replacing cling film with a simple plate you will reduce your environmental footprint in an instant while saving money This book busts persistent myths and will once and for all show that living sustainably can be both fun and convenient Besides it will not only have a positive impact on the environment but your wellbeing too Dr Tara Shine is an enlightened big picture thinker and with this book she shows that she is equally and delightfully adept at bringing details into focus This book is all about realising the power you have as an individual by informing yourself asking questions and making smart choices By getting becoming active and joining the conversation you become empowered and you do something about the problem we face rather than feeling powerless in its presence Christiana Figueres Former Executive Secretary of the United Nations Framework Convention on Climate Change
