and multiple critical approaches Laura Miller asserts that print facilitated the mainstreaming of Newton's ideas. In addition to his reading habits and his manipulation of print conventions in the *Principia*, Miller analyzes the implied readership of various popularizations as well as readers traced through the New York Society Library's borrowing records. Many of the works considered, including encyclopedias, poems, and a work written for the ladies, are not scientifically innovative but are essential to eighteenth-century readers' engagement with Newtonian ideas. *Revising the timeline in which Newton's scientific ideas entered eighteenth-century culture*. *Reading Popular Newtonianism* is the first book to interrogate at length the importance of print to his consequential career.

Education as Enforcement Kenneth Saltman, David A. Gabbard, 2010-09-13

The first volume to focus on the intersections of militarization, corporations, and education, *Education as Enforcement* exposed the many ways schooling has become the means through which the expansion of global corporate power are enforced. Since publication of the first edition

these trends have increased to disturbing levels as a result of the extensive militarization of civil society the implosion of the neoconservative movement and the financial meltdown that radically called into question the basic assumptions undergirding neoliberal ideology An understanding of the enforcement of these corporate economic imperatives remains imperative to a critical discussion of related militarized trends in schools whether through accountability and standards school security or other discipline based reforms Education as Enforcement elaborates upon the central arguments of the first edition and updates readers on how recent events have reinforced their continued original relevance In addition to substantive updates to several original chapters this second edition includes a new foreword by Henry Giroux a new introduction and four new chapters that reveal the most contemporary expressions of the militarization and corporatization of education New topics covered in this collection include zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the intersection of the militarization and corporatization of schools under the Obama administration
