**Learning Objectives**

- ♥ To be able to select, the importance and different types of instructional materials in teaching
- ♥ To be able to define instructional technology and give its importance
- ♥ To be able to enumerate the different types of instructional technology that can be used in classrooms
- ♥ To be able to apply effective instructional technology

**I. Selection, importance, and different types of instructional materials in teaching**

Factors to consider when selecting instructional materials:

The foundation for what students will encounter and learn is provided by the instructional materials. They have the ability to either motivate or disengage students. As a result, it's important to carefully consider how you use and arrange your teaching resources.

**Overview of key factors to consider when selecting instructional materials:**

● Take into consideration individual needs and learning styles:

Pick resources that offer information in a variety of formats. Information is made more engaging and is tailored to the various learning styles of students by including mixed media (text, video, photos, real-world examples, graphs, etc.).

● Make sure the materials support learning objectives:

Offer a variety of resources that will enhance and support the course objectives and content. The purpose of the educational resources should be to support and augment the teacher's efforts to educate, not to replace them.

● Make the materials clear and accessible:
