

UPWORDS

You and your opponents spell words with stackable letter tiles on the special gameboard to score points. You build words by playing letters across or down the board and by stacking letters on top of letters already on the board to form different words. It's this 3-dimensional game play that makes UPWORDS so unique and challenging to play. You score points for each letter in your word and every letter tile under each letter of your word. Letters can be stacked five tiles high so your score can really add up fast. Build words, stack letters, score high and have fun!!

AIM : Build words to score the most points.

CONTENTS : 1 plastic gameboard unit, 1 label sheet, 4 plastic racks, 64 plastic letter tiles.

HOW TO SET UP THE GAME:

1. Carefully break off the 64 letter tiles from the 4 runners. Turn all the tiles letterside down and mix them up to create a draw pile.
2. Peel off the 2 UPWORDS labels from the sheet and apply them directly to the smooth areas on the gameboard sides. Then place the gameboard within reach of all players.
3. Each player takes a rack.
4. Get a paper and pencil to keep score.
5. Keep a dictionary nearby to check the legality or spelling of any challenged word. See Rule 8 for more information. Use the dictionary to settle word challenges only.

HOW TO PLAY THE GAME

1. You and your opponents draw one letter tile from the draw pile. Whoever draws the tile nearest to the letter "A" plays first. Play then proceeds to the left. Return the tiles, letter side down, to the draw pile and mix them up again.
2. You and your opponents draw seven letter tiles each. Keep your tiles in your rack as shown in Figure 1. Don't let your opponents see your letters.
3. Whoever plays first must form a word of two letters or more that covers at least one of the four special game squares in the centre of the gameboard.

PLEASE NOTE: these are the four game squares with cutout corners (○)

4. BASIC TURN:

On your turn play one or more letter tiles to either form a new word that connects to a word already on the board or change a word already on the board into a different word. All letters played on your turn must be in the same row of game squares either across or down. Compute and announce your point score then draw letter tiles from the draw pile to replace the ones you played.

IMPORTANT: A word is legal and can be used in the game if it is in the dictionary and it does not fall into any of the categories of illegal words listed in Rule 7.

5. HOW TO FORM WORDS:

Figures 2 through 7 shows a consecutive sequence of plays. Arrows point out the word or words formed on each play. Point scores are given for each example. See Rule 6 for details on scoring.

- You can play letters to form a word that reads across (from left to right only) or down the gameboard (never diagonally or up) and connects to a word already on the board. For example, build down from the letter "D" in MOOD to form the word DEAR as shown in Figure 2. Build across using the letter "E" DEAR to form the word NET as shown in Figure 3. The word ON is also formed reading down. You receive points for all words formed during your turn

PLEASE NOTE: Any letter in your word that is adjacent to another letter or letters on the board must form a word. For example, in Figure 3 the letter "N" in NET is adjacent to the letter "D" in MOOD which forms the word ON.

- **Stacking letters:** You can stack letters on top of letters already on the board to change a word into a different word. For example, stack the letter "W" on top of the letter "M" in MOOD to change MOOD to WOOD as shown in Figure 4, you cannot play more than one letter on the same stack during one turn. You cannot stack a letter on the same letter, for example, an "A" on an "A". **IMPORTANT:** letters cannot be stacked more than five tiles high
