Beware Euphoria George Fisher, 2024 George Fisher seeks the moral roots of America s antidrug regime and challenges claims that early antidrug laws arose from racial animus Those moral roots trace to early Christian sexual strictures which later influenced Puritan condemnations of drunkenness and ultimately shaped the early American drug war Early laws against opium dens cocaine and cannabis rarely rose from racial strife but sprang from the traditional moral censure of intoxication and perceived threats to respectable white women and youth The book closes with an examination of cannabis legalization driven in part by the movement for racial justice

Pleasants, Augustus M. Burns III, 2017-03-01 The tumultuous North Carolina Senate primaries of 1950 are still viewed as the most bitter chapter in the state s modern political history The central figure in that frenzied race was the appointed incumbent Frank Porter Graham former president of the University of North Carolina 1931-49 and liberal activist of national stature As a Senate candidate Graham was unrelentingly attacked for both his social activism and his racial views and the vicious tactics used against him shocked his supporters and alarmed national observers Peeling away the myths that have accumulated over the years the authors present the first thoroughly

researched account of Graham's eventual defeat by Raleigh attorney Willis Smith. The result, a balanced study of North Carolina politics at mid century, is a convincing explanation of the 1950 election. Using the campaign as a prism, the authors assess the factional struggles within the state, showing that Graham was defeated by a massive loss of support among white voters in eastern North Carolina. The principal force behind this switch was the fear promulgated by the Smith campaign that a vote for Graham was a vote to end statutory segregation in North Carolina. The authors also offer the fullest portrait to date of Frank Porter Graham as political candidate and social reformer. They examine his career as an educator and public activist, the steps that led to his unorthodox appointment, and his strengths and weaknesses as a political candidate. **Frank Porter Graham and the 1950 Senate Race in North Carolina** is based on manuscript materials never before examined, on interviews with more than 50 campaign participants and associates of both Graham and Smith, and on a thorough analysis of newspaper coverage and campaign literature. Originally published in 1990, **A UNC Press Enduring Edition**. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. Financial Euphoria, Consumer Culture, and Literature of 1980s Japan Ikuho Amano, 2022-12-30 This book is an interdisciplinary study of Japan during the socially euphoric years of the Bubble Economy in the 1980s. Shedding light on consumer experiences, this study explores the socio-cultural landscape of Japan, the nation that boasted the second largest economy in the late twentieth century. Drawing its analysis from various media sources, popular literary works, and public reports, the book articulates how the late 1980s calibrated consumer demands, lifestyles, and perceptions of wealth. Through an examination of the qualitative effects of Bubble money on consumers, the book disentangles the anatomy of the festive ambience in the economic phase, closely reading fictional and non-fictional literary works that play the role of reportage, critique, and satire. Through observations of human behaviours in consumption, the book reveals psychosomatic experiences and self-consciousness. Featuring a wide range of sources from Japanese media and literary works, which have yet to be translated for an English audience, this book will be a valuable resource for students and scholars of modern Japanese culture and literature who are interested in the socio-economic landscape of late twentieth-century Japan.

Les enfants du printemps Wallace Thurman, 2019-01-28 T00:00:00-05:00 Il s'en passe des choses au nord de Manhattan en ces années d'après-guerre. Le blues a envahi les têtes et les corps, les hommes et les femmes ont soif de liberté et de mauvais gin. Raymond Taylor, un crivain à l'ambition débordante, habite avec ses amis artistes dans un immeuble de Harlem qu'ils ont baptisé le manoir Niggeratti. Mais que faut-il pour créer un chef-d'œuvre, une fois puissante et effarouchée, pleine de bruit et de fureur, débordante d'un mélange d'enthousiasme et de cynisme qui ravage tout sur son passage? **Les enfants du printemps** se lisait et se lit encore aujourd'hui comme on prend une douche froide pour dégriser. Point de vue du traducteur. **Les enfants du printemps** est un réquisitoire en bonne et due forme d'un moment historique et social particulier.

Harlem et les artistes afro américains ont fait la mode autant chez les intellectuels iconoclastes que chez les bien pensants Rien ni personne n'y est parvenu alors que Thurman tire boulets rouges sur ses compatriotes crivains sur les radicaux blancs profiteurs sur l'intelligentsia noire sur les classes moyennes sur les lèche botte et les lèche cul
