With Children and Youth Kiaras Gharabaghi,Hans A. Skott-Myhre,Mark Krueger,2014-10-07 With Children and

Youth provides a snapshot of emerging theories and perspectives in the field of child and youth care across North America. Well known scholars and researchers present new and innovative critical perspectives written in a provocative manner and reflecting outside the box thinking. The book examines from scholarly and practical viewpoints the purpose of child and youth care practice, relational practice, post modern approaches to thinking about theory and practice, and new and innovative thinking about the professionalization and accreditation of the discipline itself. Some chapters merge thinking about child and youth care with esoteric and literary prose, others use humour and satire as a way to represent both foundational and entirely new directions in the field. With Children and Youth provides no set conclusions or findings about the field; instead, it guides the reader to spaces of controversy, contention, and opportunities for innovation and change. Child and youth care practice and theory, it is argued, is based fundamentally on engagement across generations, cultures, and social positions, and this book exemplifies precisely that.

The Digital Is Kid Stuff Josef Nguyen, 2021-12-28. How popular debates about the so called digital generation mediate anxieties about labor and life in twenty first century America. The children are our future goes the adage, a proclamation that simultaneously declares both anxiety as well as hope about youth as the next generation. In The Digital Is Kid Stuff Josef Nguyen interrogates this ambivalence within discussions about today's digital generation and the future of creativity, an ambivalence that toggles between the techno pessimism that warns against the harm to children of too much screen time and a techno utopianism that foresees these digital natives leading the way to innovation, economic growth, increased democratization, and national prosperity. Nguyen engages cultural histories of childhood, youth, and creativity through chapters that are each anchored to a particular digital media object or practice. Nguyen narrates the developmental arc of a future creative laborer from a young kid playing the island fictions of Minecraft to an older child learning to do it yourself skills while reading *Make* magazine, to a teenager posting selfies on Instagram, to a young adult creative laborer imagining technological innovations using design fiction. Focusing on the constructions and valorizations of creativity, entrepreneurialism, and technological savvy, Nguyen argues that contemporary culture operates to assuage profound anxieties about and to defuse valid critiques of both emerging digital technologies and the precarity of employment for creative laborers in twenty first century neoliberal America.
