The Roles of Technology and Globalization in Educational Transformation Adeoye, Blessing F., Arome, Gladys, 2019-08-16

The emergence of the internet and developments in educational software have changed the way teachers teach and the way students learn. There has been a substantial increase in the quantity, quality and diversity of educational material available over the internet or through the use of satellite video and audio linkups. These technologies have allowed new learning methods and techniques to reach a greater geographic region and have contributed to the global transformation of education. *The Roles of Technology and Globalization in Educational Transformation* is an essential academic book that provides comprehensive research on issues concerning the roles of technology and globalization in educational transformation and the challenges of teaching and learning in various cultural settings and how they were resolved. It will support educational organizations that wish to find, create or adapt technology for use in their institution. Featuring a broad range of topics such as public administration, educational technology and higher education, this book is essential for teachers, deans, principals, school administrators, IT specialists, curriculum developers, instructional designers, higher education staff, academicians, policymakers, researchers and students.

UNIX Review, 1987 *Crafting History* Albena Yaneva, 2020-11-15

What constitutes an archive in architecture? What forms does it take? What epistemology does it perform? What kind of craft is archiving? *Crafting History* provides answers and offers insights on the ontological granularity of the archive and its relationship with architecture as a complex enterprise that starts and ends much beyond the act of building or the life of a creator. In this book, we learn how objects are processed and catalogued, how a classification scheme is produced, how models and drawings are preserved, and how born-digital material battles time and technology obsolescence. We follow the work of conservators, librarians, cataloguers, digital archivists, museum technicians, curators and architects, and we capture archiving in its mundane and practical course. Based on ethnographic observation at the Canadian Centre for Architecture and interviews with a range of practitioners including Ivar Siza and Peter Eisenman, Albena Yaneva traces archiving through the daily work and care of all its participants, scrutinizing their variable ontology, scale and politics. Yaneva addresses the strategies practicing architects employ to envisage an archive-based future and tells a story about how architectural collections are crafted so as to form the epistemological basis of architectural history.

Embracing the Song of Term: An Mental Symphony within **English Language Scheme Of Work For Ss3**

In a world taken by monitors and the ceaseless chatter of instantaneous transmission, the melodic splendor and mental symphony created by the written term usually disappear in to the background, eclipsed by the relentless sound and disturbances that permeate our lives. However, situated within the pages of **English Language Scheme Of Work For Ss3** an enchanting fictional treasure overflowing with natural emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that interesting masterpiece conducts viewers on a mental trip, well unraveling the concealed tunes and profound affect resonating within each carefully crafted phrase. Within the depths with this poignant examination, we will explore the book is central harmonies, analyze its enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
