

Titre: Listening and Reading Test

Objectifs:

- To practise listening and reading tasks in preparation for M4 assessment

1 Reading task. Read through first, then answer the questions in English.

- (a) Read this blog by Amir in which he describes what is important to him about the town where he lives.

Ma ville

Hier, j'ai répondu à un sondage en ligne sur les aspects de la ville où j'habite qui sont les plus importants pour moi.

L'essentiel pour moi est d'habiter dans une ville où il y a beaucoup de choses à faire. Cependant, il faut aussi avoir de bons transports en commun. Comme ça, je peux sortir avec mes amis ou faire les magasins.

En plus, je veux habiter un endroit propre, sans pollution et sans déchets par terre.

Vocab help!

Un sondage = a survey

En ligne = on line

Il faut = you must

Sortir = to go out

Propre = clean

déchets = rubbish

Answer the following questions in English. You do not need to write in full sentences.

- 1 What is the most important thing for Amir about the town where he lives?
- 2 Give one reason why he needs good public transport.
- 3 What sort of local environment does he want to live in?

Francophonie ,1997 *Resources in Education* ,1982 Telemedicine in Low-Resource Settings Richard Wootton,2015-04-24 Telemedicine networks to support healthcare workers in resource limited settings often for humanitarian purposes have evolved over the last decade or so in a largely autonomous way Communication between them has been informal and relatively limited in scope This situation could be improved by developing a comprehensive approach to the collection and dissemination of information A recent review identified seven telemedicine networks each of which had been in operation for at least five years and which provided store and forward telemedicine services to doctors in low and middle income countries These networks provide clinically useful services and improved healthcare access However like much of telemedicine the formal evidence for their cost effectiveness remains weak Topics of current research interest therefore include the cost effectiveness of telemedicine in resource limited settings Outcomes data and methods for gathering it such as patient quality of life following a telemedicine episode the knowledge gain of healthcare staff involved in telemedicine and staff recruitment and retention in rural areas are also of interest Finally there is little published information about the performance of these telemedicine networks and methods for measuring it about how best to manage them and about how to share resources between them A collection of articles reporting the current evidence supporting the use of telemedicine in resource limited settings would build the evidence base and should provide a focus for future research It would also serve to raise the profile of this potentially important research field **Nuclear Science Abstracts** ,1970
