The Chester Beatty

Biblical Papyri at Ninety Garrick Vernon Allen, Usama Ali Mohamed Gad, Kelsie Gayle Rodenbiker, Anthony Philip Royle, Jill Unkel, 2023-05-08 Despite the significant work carried out on the text transmission materiality and scribal habits preserved in the Chester Beatty Biblical Papyri since their acquisition by Beatty ninety years ago in 1931 these early copies of Jewish scripture and the New Testament have for the most part belonged primarily to textual critics The goal of this book is to resituate this important collection of manuscripts in broader contexts examining their significance in conversation with papyrology as a discipline in the context of other ancient literary traditions preserved on papyri and in discussion with the intellectual and cultural history of collecting colonialism and scholarly rhetoric The Chester Beatty Biblical Papyri and other papyrological collection with which they are inextricably bound remind us of the critical value of examining old manuscripts afresh in their historical scholarly and intellectual contexts These studies are relevant for all scholars who work with manuscripts and ancient texts of any variety *Accountancy Class 11* Dr. S. experimental research showing the effects of interventions targeting executive function has yielded important insights into the neurocognitive processes underlying executive function. Given the complexity of the construct of executive function, however, and the multiplicity of underlying processes, there are often inconsistencies in the way that executive function is defined and studied. This inconsistency has hampered communication among researchers from various fields. This Research Topic is intended to bridge this gap and provide an opportunity for researchers from different perspectives to discuss recent advances in understanding childhood executive function. Researchers using various methods including behavioral experiments, neuroimaging, eye tracking, computer simulation, observational methods, and questionnaires are encouraged to contribute original empirical research. In addition to original empirical articles, theoretical reviews and opinion perspective articles on promising future directions are welcome. We hope that researchers from different areas such as developmental psychology, educational psychology, experimental psychology, neuropsychology, neuroscience, psychiatry, computational science, etc. will be represented in the Research Topic.

Frontiers in Civil Justice Kramer, Xandra, Hoevenaars, Jos, Kas, Betül, Themeli, Erlis, 2022-08-18. This book studies three interrelated frontiers in civil justice from European and national perspectives, combining theory with policy and insights from practice: the interplay between private and public justice, the digitisation of justice, and litigation funding. These current topics are viewed against the backdrop of the requirements of effective access to justice and the overall goal of establishing a sustainable civil justice system in Europe.

The Gift of Violence Matt Thornton, Peter Boghossian, 2023-04-11. In today's modern world, we are largely isolated from the kind of savagery our ancestors faced on a daily basis. Although violence was as natural to our evolutionary development as sex and food, it has become foreign to most of us: at once demonized and glamorized, but almost always deeply misunderstood. Our hard-earned and hard-wired instincts, our evolved and trained ability to survive and overcome violent encounters, have been compromised. Yet, as even a cursory look at news headlines or a police blotter will reveal, the threat of violent crime is ever present, and those we've entrusted to protect us cannot always be relied upon. *The Gift of Violence* tells the story of this vulnerability and provides the average person with all the knowledge they need to reduce the likelihood of becoming a victim of violence and to increase their chances of surviving a violent encounter. Based both on the author's decades of experience teaching everyday people how to defend themselves and on a rational approach to the scientific data, *The Gift of Violence* offers clear, easy-to-remember lessons for people of all ages and abilities. It is designed to empower those who've been affected by violence or are concerned that they or their loved ones could be. In short, it was written to help good people become more dangerous to bad people. Every reader will be armed with the necessary knowledge to harness the power of violence for him or herself and, in the process, to be not just smarter and stronger but also safer.

A Microcredit Alternative in South Asia Shahrukh Rafi Khan, Natasha Ansari, 2018-03-28 Microcredit took the development world by storm as a tool for poverty alleviation in the 1980s. After being hailed as a panacea, a few decades on it started being forcefully criticised based on its practice. This book explores Akhuwat, literally brotherhood, a rapidly growing Pakistani NGO formed in 2001 which addresses the shortcomings of conventional microfinance. Its vision is of a society built on empathy and social solidarity and its mission is that of creating self-sufficiency among the entrepreneurial poor. This book examines whether Akhuwat fulfils its promises of not pushing loans or encouraging clients to get on a debt treadmill and helping them to avoid high debt burdens by charging no interest and easing repayment terms. Conventional microcredit organizations are criticised for losing sight of the original mission of poverty alleviation by engaging in empire building and Akhuwat's goal is to avoid this by embracing an alternative strategy of scaling up. Finally, this book also analyses Akhuwat's approach as being gender sensitive and embracing all religions, castes and ethnicities. Based on fieldwork designed to assess if Akhuwat is the microcredit alternative it claims to be, this book will be of interest to scholars of poverty and development studies in general and microcredit in particular.

Work out of Place Mahua Sarkar, 2017-12-04 All work is free work or is it? Rooted in the historical and theoretical debates over the status of labor, this volume analyzes the relationship between free and forced work, migration and the role that states play in producing unfreedom. With contributions among others from Stephen Castles, Cindy Hahamovitch, Vincent Houben, and William G. Martin, the book explores constrained labor forms across the world from the mid 19th century to today.

Strategic Corporate Social Responsibility David Chandler, 2019-08-13 A holistic perspective for navigating and exploring the CSR landscape. Strategic Corporate Social Responsibility: Sustainable Value Creation, Fifth Edition, redefines corporate social responsibility (CSR) as being central to the value-creating purpose of the firm and provides a framework that firms can use to navigate the complex and dynamic business landscape. Based on a theory of empowered stakeholders, this bestselling text argues that the responsibility of a corporation is to create value broadly defined. The primary challenge for managers today is to balance the competing interests of the firm's stakeholders, understanding that what they expect today may not be what they will expect tomorrow. This tension is what makes CSR so demanding, but it is also what makes CSR integral to the firm's strategy and day-to-day operations.
