*Behavioral Science & Policy: Volume 2, Issue 1* Craig Fox, Sim B. Sitkin, 2016-11-22 The success of nearly all public and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better understood than ever thanks to a growing body of practical behavioral science research However policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages of this new journal will become a meeting ground a place where scientists and non scientists can encounter clearly described behavioral research that can be put into action By design the scope of BSP is broad with topics spanning health care financial decisionmaking energy and the environment education and culture justice and ethics and work place practices Contributions will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision science and marketing The journal is a key offering of the Behavioral Science Policy Association in partnership with the Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does not advance a particular agenda or political perspective The first issue s contents follow Behavioral Science Policy vol 2 no 1 Table of Contents Editors Note Spotlight Pre Kindergarten Interventions American Policy on Early Childhood Education Development Many Programs Great Hopes Modest Prospects Ron Haskins Evidence for the Benefits of State Prekindergarten Programs Myth Misrepresentation Dale C Farran Mark W Lipsey Reforming Head Start for the 21st Century A Policy Prescription Sara Mead Ashley LiBetti Mitchel Home Visiting Programs Four Evidence Based Lessons for Policymakers Cynthia Osborne Launching Preschool 2 0 A Road Map to High Quality Public Programs at Scale Christina Weiland A 10 Year Strategy of Increased Coordination Comprehensive Investments in Early Child Development Ajay Chaudry Jane Waldfogel Reimagining Accountability in K 12 Education Brian P Gill Jennifer S Lerner Paul Meosky Featured Topic Healthy Through Habit Interventions for Initiating Maintaining Health Behavioral Change Wendy Wood David Neal Making the Truth Stick the Myths Fade Lessons from Cognitive Psychology Norbert Schwarz Eryn Newman William Leach Editorial Policy

**Economic Growth and the Middle Class in an Economy in Transition** Zoya Nissanov, 2017-01-24 This book studies the evolution of the middle class in Russia after the fall of the Soviet Union Using data from the RLMS Russian Longitudinal Monitoring Survey the volume covers the period of transition 1991 2008 during which many fundamental economic reforms were implemented The first part of the book is devoted to a discussion of the concept of middle class and a description of the economic situation in Russia during the transition period Particular attention is given to variations in the distribution of Russian incomes and the estimated importance of the middle class The second part of the book focuses on the link between the middle class and income bipolarization The third and last section of the book uses the semiparametric mixture model to discover how many different groups may be derived from the income distribution in Russia as well as what the main socio

economic and demographic characteristics of those groups are The mobility of households into and out of the middle class during the transition period is also studied in hopes of determining the factors that contribute to such mobility Using rigorous empirical methods this volume sheds light on a relatively unstudied economic group and provides insight for countries which are about to enter a transition period As such this book will be of great interest to researchers in economics and inequality as well as professionals and practitioners working with international organizations

**The effect of land inheritance on youth employment and migration decisions: Evidence from rural Ethiopia** Kosec, Katrina,Ghebru, Hosaena,Holtemeyer, Brian,Mueller, Valerie,Schmidt, Emily,2017-03-28 In Ethiopia there are two binding forces push and pull that deserve attention when it comes to youth occupational and spatial mobility choices and the national land use and transfer policy On the one hand the fact that the land rental market in Ethiopia is supply constrained due to market and policy distortions marginalizes youth and serves as a push factor leading them to look elsewhere for a livelihood strategy On the other hand the regulatory conditions and restrictions attached to land use and inheritance rights may serve as a pull factor and force youth to be tied to the rural and or farming sector Our study thus aims to explore how youth land access both inheritance and market based affects their migration and employment decisions We explore this question in the context of rural Ethiopia using panel data from 2010 and 2014 We find that larger expected land inheritances significantly lower the likelihood of long distance permanent migration and of permanent migration to urban areas during this time Inheriting more land is also associated with a significantly higher likelihood of employment in agriculture and a lower likelihood of employment in the nonagricultural sector Conversely the decision to attend school is unaffected These results appear to be most heavily driven by males and by the older half of our youth sample We also find several mediating factors matter Land

inheritance plays a much more pronounced role in predicting rural to urban permanent migration and nonagricultural sector employment in areas with less vibrant land markets and in relatively remote areas those far from major urban centers Overall the results reaffirm the notion that push factors dominate pull factors in dictating occupational and migration decisions in Ethiopia and highlight youth preferences to use migration or non agricultural employment as a last resort after exhausting other means of accessing land such as temporary land rental

*Science Outside the Laboratory* Marcel Boumans,2015 Social science experiments often cannot be analyzed under controlled conditions as many take place outside a laboratory None the less measurement provides scientists with a sound basis for collecting and analyzing the results of field research Science Outside the Laboratory examines the relationship between measurement theory and field investigations through the philosophy of science

**Credit Rating Governance** Ahmed Naciri,2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country This book examines the governance of credit rating agencies as expressed by their ability to fairly ethically and consistently assign higher rates to issuers having lesser default risks However factors such as the drive for increased revenue and market share the inadequate business model the inadequate methodology of assessing risk opacity

and inadequate internal monitoring have all been identified as critical governance failures for credit agencies This book explores these issues and proposes some potential solutions and improvements This will be of interest to researchers and advanced students of corporate finance financial economics risk management investment management and banking

**The Early Years** Inter-American Development Bank, Norbert Schady, 2015-10-22 This book is open access under a CC BY NC ND 3.0 IGO license The Early Years analyzes the development of Latin American and Caribbean children and makes a compelling case for government intervention in what is instinctively a family affair Spending on effective programs for young children is an investment that if done well will have very high returns while failure to implement such programs will lower the returns on the hefty investments being made in primary secondary and higher education Policies for young children belong at the core of a country's development agenda alongside policies to develop infrastructure and strengthen institutions However if the services provided or funded by governments are to benefit children they must be substantially better than what is currently being delivered in the region This book offers suggestions for improving public policy in this critical area

**After Piketty** Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08 Are Thomas Piketty's analyses of inequality on target Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation In After Piketty a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right

**Too Many Children Left Behind** Bruce Bradbury, Miles Corak, Jane Waldfogel, Elizabeth Washbrook, 2015-06-30 The belief that with hard work and determination all children have the opportunity to succeed in life is a cherished part of the American Dream Yet increased inequality in America has made that dream more difficult for many to obtain In Too Many Children Left Behind an international team of social scientists assesses how social mobility varies in the United States compared with Australia Canada and the United Kingdom Bruce Bradbury Miles Corak Jane Waldfogel and Elizabeth Washbrook show that the academic achievement gap between disadvantaged American children and their more advantaged peers is far greater than in other wealthy countries with serious consequences for their future life outcomes With education the key to expanding opportunities for those born into low socioeconomic status families Too Many Children Left Behind helps us better understand educational disparities and how to reduce them Analyzing data on 8,000 school children in the United States the authors demonstrate that disadvantages that begin early in life have long lasting effects on academic performance The social inequalities that children experience before they start school contribute to a large gap in test scores between low and high SES students later in life Many children from low SES backgrounds lack critical resources including books high quality child care and other goods and services that foster the stimulating environment necessary for cognitive development The authors find that not only is a child's academic success deeply tied to his or her family background but that this class based achievement gap does not narrow as the child proceeds through school The authors compare test score gaps from the United States with those from three other countries and find

smaller achievement gaps and greater social mobility in all three particularly in Canada The wider availability of public resources for disadvantaged children in those countries facilitates the early child development that is fundamental for academic success All three countries provide stronger social services than the United States including universal health insurance universal preschool paid parental leave and other supports The authors conclude that the United States could narrow its achievement gap by adopting public policies that expand support for children in the form of tax credits parenting programs and pre K With economic inequalities limiting the futures of millions of children *Too Many Children Left Behind* is a timely study that uses global evidence to show how the United States can do more to level the playing field **The**

becoming practical futurists school librarians can help their libraries not only to survive sweeping changes in education but to thrive This book shows how to spot technological trends and use them to your library s advantage During this time of rapid modernization of technology and educational reform this book is a must read for school librarians tasked with ensuring their libraries meet evolving standards This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees technology curricula and strategic planning School librarians need to collect and publicize national and local school based evidence that shows the positive correlations between school librarians and student achievement Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable In addition acquiring technological skills and becoming expert at their application are paramount for librarians Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking skills throughout the curriculum Craver analyzes studies that show students inability to discern fact from fiction ads from news and information bias in electronic information sources and recommends six actions that school librarians take to ensure that they become active participants in their future rather than its victims

An Evaluation of the Public Schools of the District of Columbia National Research Council,Division of Behavioral and Social Sciences and Education,Board on Testing and Assessment,Committee for the Five-Year (2009-2013) Summative Evaluation of the District of Columbia Public Schools,2015-08-31 An Evaluation of the Public Schools of the District of

Columbia is a comprehensive five year summative evaluation report for Phase Two of an initiative to evaluate the District of Columbia's public schools. Consistent with the recommendations in the 2011 report *A Plan for Evaluating the District of Columbia's Public Schools*, this new report describes changes in the public schools during the period from 2009 to 2013. An Evaluation of the Public Schools of the District of Columbia examines business practices, human resources, operations, and human capital strategies, academic plans, and student achievement. This report identifies what is working well seven years after legislation was enacted to give control of public schools to the mayor of the District of Columbia and which areas need additional attention.

*Language and Sustainable Development* Lisa J. McEntee-Atalianis, Humphrey Tonkin, 2023-03-03. This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN's Sustainable Development Goals (SDGs). Sustainable language policy must aim to include all groups, including language minorities and marginalized populations such as refugees and aid recipients, in conditions that allow for their inclusion in making and implementing policy. The book brings together nine studies covering such topics as language and digital resources, sustainable and inclusive multilingual education, national language policy, and language in peacekeeping operations. A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs.
