Global and Regional Leadership of BRICS Countries Stephen Kingah, Cintia Quiliconi, 2015-11-17 This book presents a systematic collation of the regional and global dimensions of the leadership role of BRICS countries Brazil Russia India China and South Africa It analyses the rising regional and global leadership of BRICS using specific benchmarks to gauge the nature of this leadership The elements examined include willingness to lead the capacity to do as much and the degree to which the given actor is accepted as a leader both within and beyond its region The chapters in the book capture the nature of trends in regional and global leadership within the contexts of a changing international order It is taken for granted that Brazil Russia India China and South Africa are now engineering a unique pool of governance that is seeking alternatives to the current order of global economic and political affairs The fact that these countries have jointly decided to forge ahead with the BRICS constellation of states that is now taking consequential decisions such as the creation of the BRICS New Development Bank is not to be treated lightly In this book the majority of papers take a step back and systematically analyse the real state of the leadership that is provided by the BRICS on a litany of regionally and globally relevant issues While no one doubts the fact that these
