Durban Dialogues, Indian Voice Ashwin Singh, 2017-07-05 Durban Dialogues Indian Voice is an anthology of five engaging and eclectic South African plays by award winning playwright Ashwin Singh The plays selected namely To House Duped Spice n Stuff Reoca Light and Beyond the Big Bangs represent the complete array of Singh's storytelling skills in drama as well as satire Each play reflects in different ways on the complexities and contradictions of life in post Apartheid

South Africa and focuses particularly on people of Indian origin and their relationship with other South African communities. The plays present a moving portrait of a unique array of characters and are also punctuated by Singh's trademark humour. Each one is set in Durban, South Africa's third largest and most diverse city, and they are described by renowned academic and critic Betty Govinden as 'undressing Durban' as they take us away from the neon lights and candy floss to the reality of the underbelly of post-Apartheid urban and suburban existence.

Resources in Education, 1994 *Paper Trade Journal*, 1912 **Building World**, 1907 **The World's Paper Trade Review**, 1908 School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01. School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning, and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers, and postgraduate students in the fields of science education and educational policy.
