*Enacting Alberta School Leaders' Professional Practice Competencies* George J. Bedard, Carmen P.

Mombourquette, 2016-01-21 This book captures the lived experiences of school principals engaged in meeting the standards of practice inherent in the Professional Practice Competencies for School Leaders in Alberta. These principals tell their own stories of how they meet the competencies mandate of building relationships, establishing and living a school vision, leading a learning community, providing instructional leadership, developing leadership in others, managing the organization, and responding to the societal needs of the context within which the schools are located. In addition, as authors, we provide a theoretical framework for the competencies and situate them within scholarly research. *New Technologies in*

*Dermatological Science and Practice* Lawrence S. Chan, M. Peter Marinkovich, 2021-08-01 While science and technology have been moving at speed in the last decade and major investments have been placed in Artificial Intelligence, blockchain technology, 3D printing, and gene editing, medical practice, including cutaneous medicine, otherwise known as Dermatology, is only just starting to follow these technological advances. This book is a timely intellectual investment for cutaneous medicine, addressing these particularly needed areas. It is written for medical educators, dermatology residents, practicing dermatologists, and medical researchers in the area of skin diseases to alert them all to medical advances and up and coming technology and in the hope it will inspire further novel methodology for the future of cutaneous medicine in diagnosis and therapy. *Resources in Education*, 2001-10 *New Directions for Equity in Mathematics Education* Walter G.

Secada, Elizabeth Fennema, Lisa Byrd Adajian, 1995-04-28 This book examines equity from the standpoint of mathematics education, an excellent forum for the topic since the results are quantifiable and the disparity in performance is stark.
