visiting a church narrating a family movie exposing students to a nearby school re working a found sculpture taking a licensure exam attending a protest and waiting for the El By juxtaposing multiple voices and images he attempts to see how in both method and content the texts themselves act on the worlds and lives they describe Tillet narrates from many perspectives teacher researcher writer artist architect activist parent theorist and struggling protagonist of his own life As such many readers sharing such roles will immediately find connections within the book For researchers struggling to find workable qualitative methodologies after poststructuralism the experimental methods employed here may provide welcome inspiration However the book seems aimed not so much at particular disciplines but at anyone who like Tillet is actively searching for how to live Anyone involved in such a search will likely find hope and ways forward in his methods that look at life as we are already living it

,1898 *Reading, Writing, and Racism* Bree Picower,2021-01-26 An examination of how curriculum choices can perpetuate White supremacy and radical strategies for how schools and teacher education programs can disrupt and transform racism in education When racist curriculum goes viral on social media it is typically dismissed as an isolated incident from a bad teacher Educator Bree Picower however holds that racist curriculum isn't an anomaly It's a systemic problem that reflects how Whiteness is embedded and reproduced in education In *Reading Writing and Racism* Picower argues that White teachers must reframe their understanding about race in order to advance racial justice and that this must begin in teacher education programs Drawing on her experience teaching and developing a program that prepares teachers to focus on social justice and antiracism Picower demonstrates how teachers ideology of race consciously or unconsciously shapes how they teach race in the classroom She also examines current examples of racist curricula that have gone viral to demonstrate how Whiteness is entrenched in schools and how this reinforces racial hierarchies in the younger generation With a focus on institutional strategies Picower shows how racial justice can be built into programs across the teacher education pipeline from admission to induction By examining the who what why and how of racial justice teacher education she provides radical possibilities for transforming how teachers think about and teach about race in their classrooms
