

The background of the cover is a photograph of an ancient Greek vase painting. It depicts a male figure, possibly a deity or hero, standing and holding a long staff or scepter. The figure is rendered in a simple, linear style characteristic of ancient Greek pottery. The vase itself is a light brown color with some visible cracks and wear.

Graffiti In Antiquity:

Graffiti in Antiquity Peter Keegan, 2014-10-10 Ancient graffiti hundreds of thousands of informal ephemeral texts spanning millennia offer a patchwork of fragmentary conversations in a variety of languages spread across the Mediterranean world Cut painted inked or traced in charcoal the surviving graffiti present a layer of lived experience in the ancient world unavailable from other sources Graffiti in Antiquity reveals how and why the inhabitants of Greece and Rome men and women and free and enslaved formulated written and visual messages about themselves and the world around them as graffiti The sources drawn from 800 BCE to 600 CE are examined both within their individual historical cultural and archaeological contexts and thematically allowing for an exploration of social identity in the urban society of the ancient world An analysis of one of the most lively and engaged forms of personal communication and protest Graffiti in Antiquity introduces a new way of reading sociocultural relationships among ordinary people living in the ancient world **Ancient**

Graffiti in Context Jennifer Baird, Claire Taylor, 2010-10-18 Graffiti are ubiquitous within the ancient world but remain underexploited as a form of archaeological or historical evidence They include a great variety of texts and images written or drawn inside and outside buildings in public and private places on monuments in the city on objects used in daily life and on mountains in the countryside In each case they can be seen as actively engaging with their environment in a variety of ways Ancient Graffiti in Context interrogates this cultural phenomenon and by doing so brings it into the mainstream of ancient history and archaeology Focusing on different approaches to and interpretations of graffiti from a variety of sites and chronological contexts Baird and Taylor pose a series of questions not previously asked of this evidence such as What are graffiti and how can we interpret them In what ways and with whom do graffiti communicate To what extent do graffiti represent or subvert the cultural values of the society in which they occur By comparing themes across time and space and viewing graffiti in context this book provides a series of interpretative strategies for scholars and students of the ancient world As such it will be essential reading for Classical archaeologists and historians alike Scribbling through History

Chloé Ragazzoli, Ömür Harmansah, Chiara Salvador, Elizabeth Froom, 2018-05-31 For most people the mention of graffiti conjures up notions of subversion defacement and underground culture Yet the term was coined by classical archaeologists excavating Pompeii in the 19th century and has been embraced by modern street culture graffiti have been left on natural sites and public monuments for tens of thousands of years They mark a position in time a relation to space and a territorial claim They are also material displays of individual identity and social interaction As an effective socially accepted medium of self definition ancient graffiti may be compared to the modern use of social networks This book shows that graffiti a very ancient practice long hidden behind modern disapproval and street culture have been integral to literacy and self expression throughout history Graffiti bear witness to social events and religious practices that are difficult to track in normative and official discourses This book addresses graffiti practices in cultures ranging from ancient China and Egypt through early

modern Europe to modern Turkey in illustrated short essays by specialists It proposes a holistic approach to graffiti as a cultural practice that plays a key role in crucial aspects of human experience and how they can be understood

Writing on the Wall Karen B. Stern, 2018-06-19 What ancient graffiti reveals about the everyday lives of Jews in the Greek and Roman world Few direct clues exist to the everyday lives and beliefs of ordinary Jews in antiquity Prevailing perspectives on ancient Jewish life have been shaped largely by the voices of intellectual and social elites preserved in the writings of Philo and Josephus and the rabbinic texts of the Mishnah and Talmud Commissioned art architecture and formal inscriptions displayed on tombs and synagogues equally reflect the sensibilities of their influential patrons The perspectives and sentiments of nonelite Jews by contrast have mostly disappeared from the historical record Focusing on these forgotten Jews of antiquity *Writing on the Wall* takes an unprecedented look at the vernacular inscriptions and drawings they left behind and sheds new light on the richness of their quotidian lives Just like their neighbors throughout the eastern and southern Mediterranean Mesopotamia Arabia and Egypt ancient Jews scribbled and drew graffiti everywhere in and around markets hippodromes theaters pagan temples open cliffs sanctuaries and even inside burial caves and synagogues Karen Stern reveals what these markings tell us about the men and women who made them people whose lives beliefs and behaviors eluded commemoration in grand literary and architectural works Making compelling analogies with modern graffiti practices she documents the overlooked connections between Jews and their neighbors showing how popular Jewish practices of prayer mortuary commemoration commerce and civic engagement regularly crossed ethnic and religious boundaries Illustrated throughout with examples of ancient graffiti *Writing on the Wall* provides a tantalizingly intimate glimpse into the cultural worlds of forgotten populations living at the crossroads of Judaism Christianity paganism and earliest Islam

The Gift in Antiquity Michael Satlow, 2013-04-01 *The Gift in Antiquity* presents a collection of 14 original essays that apply French sociologist Marcel Mauss's notion of gift giving to the study of antiquity Features a collection of original essays that cover such wide ranging topics as vows in the Hebrew Bible ancient Greek wedding gifts Hellenistic civic practices Latin literature Roman and Jewish burial practices and Jewish and Christian religious gifts Organizes essays around theoretical concerns rather than chronologically Generates unique insights into gift giving and reciprocity in antiquity Takes an explicitly cross cultural approach to the study of ancient history
