I've actually used different flavors of Windows and Linux for more than 13 years right alongside my trusty Mac, so experience has been my teacher. If I have any devotion to Apple, there are plenty of good reasons why the subject of this book being the first Readers of this book who are already Mac users understand exactly what I'm talking about. In Mac OS X Leopard Portable Genius you can learn not just the basics but the subtle nuances and little tips and tricks that make using your Mac that much easier.
