Inventing Authenticity Carrie Helms Tippen, 2018-08-12 In *Inventing Authenticity* Carrie Helms Tippen examines the rhetorical power of storytelling in cookbooks to fortify notions of southernness Tippen brings to the table her ongoing hunt for recipe cards and evaluates a wealth of cookbooks with titles like *Y all Come Over* and *Bless Your Heart* and famous cookbooks such as Sean Brock's *Heritage* and Edward Lee's *Smoke and Pickles* She examines her own southern history grounding it all in a thorough understanding of the relevant literature The result is a deft and entertaining dive into the territory of southern cuisine black eyed peas and cornbread fried chicken and fried okra pound cake and peach cobbler and a look at and beyond southern food tropes that reveals much about tradition identity and the yearning for authenticity Tippen discusses the act of cooking as a way to perform and therefore reinforce the identity associated with a recipe and the complexities inherent in attempts to portray the foodways of a region marked by a sometimes distasteful history *Inventing Authenticity* meets this challenge head on delving into problems of cultural appropriation and representations of race thorny questions about authorship and more The commonplace but deceptively complex southern cookbook can sustain our sense of where we come from and who we are or who we think we are

Recipes on the Move in Early Modern England and British North America Hillary Nunn,2025-10-01 Using feminist and ecocritical approaches alongside recent historical work on early modern trade and commerce this volume focuses on early modern manuscripts whose travels can be traced from one location to another It illustrates how recipes came to blend newly encountered ingredients and practices with long established healthcare methods In the process it offers attention to both the English countryside and the American colonies to expand what is often a London centered view of English healthcare Tracing the circulation of women s domestic knowledge and considering the availability of ingredients this work shows how mobility brought new methods and materials to home healthcare which in turn influenced how women and their families envisioned their relationships to their environment their bodies and their nation

Eating and Ethics in Shakespeare's England David B. Goldstein,2013-11-07 David B Goldstein argues for a new understanding of Renaissance England from the perspective of communal eating Rather than focus on traditional models of interiority choice and consumption Goldstein demonstrates that eating offered a central paradigm for the ethics of community formation The book examines how sharing food helps build demarcate and destroy relationships between eater and eaten between self and other and among different groups Tracing these eating relations from 1547 to 1680 through Shakespeare Milton religious writers and recipe book authors Goldstein shows that to think about eating was to engage in complex reflections about the body s role in society In the process he radically rethinks the communal importance of the Protestant Eucharist Combining historicist literary analysis with insights from social science and philosophy the book s arguments reverberate well beyond the Renaissance Ultimately *Eating and Ethics in Shakespeare s England* forces us to rethink our own relationship to food
