Hannah Arendt emphasizes children's ability to renew culture. The book uses the Philippine colonial experience as a case study and includes a genealogy of Hannah Arendt's concept of the social including an analysis of how she used this idea to explore the role that schools play within the political community. Azada Palacios problematizes the way that national identity is valued as an educational goal in Philippine schools and the way that Philippine citizenship education continues to aspire towards a homogeneity of culture. Through an examination of colonial era documents she traces this characteristic of colonial history and identifies this aspiration as an unreflective perpetuation of American colonial educational policy that has not been sufficiently criticized.

Labor Exchange Policy in the United States David E. Balducchi, Randall W. Eberts, Christopher J. O'Leary, 2004. Annotation: The proper matching of workers with job openings is essential for a well functioning market economy. In recent years more than 10 percent of the U.S. workforce search for jobs at any one time. The federal and state governments have long recognized the importance of assisting in the job search process. In 1933 the Wagner-Peyser Act was established to provide federal funding to states to operate a nationwide network of public employment offices. Since enactment labor exchange e.g. job finding and placement services under the Wagner-Peyser Act have been available universally to employers and job seekers without charges or conditions. Today this network includes more than 1,800 local offices of State Employment Security Agencies that are affiliated with the U.S. Employment Service. ES. The Workforce Investment Act (WIA) of 1998 amended the Wagner-Peyser Act to be part of the one-stop delivery system which provides universal access to core i.e. labor exchange services and Title I adult and dislocated worker programs. The one-stop centers provide services to both job seekers and employers. For the job seeker services include assessment, counseling, and testing, job search workshops, and job placement. For employers services include job order taking, recruitment, screening, and referral of job seekers.

Women in Modern India Geraldine Forbes, Geraldine Hancock Forbes, 1999-04-28. In a compelling study of Indian women, Geraldine Forbes considers their recent history from the nineteenth century under colonial rule to the twentieth century after Independence. She begins with the reform movement established by men to educate women and demonstrates how education changed women's lives, enabling them to take part in public life. Through their own accounts of their lives and activities, she documents the formation of their organizations, their participation in the struggle for freedom, their role in the colonial economy, and the development of the women's movement in India since 1947.
