The Language of Light Gerald Shea, 2017-01-01 A comprehensive history of deafness signed languages and the unresolved struggles of the Deaf to be taught in their unspoken tongue Partially deaf due to a childhood illness Gerald Shea is no stranger to the search for communicative grace and clarity In this eloquent and thoroughly researched book he uncovers the centuries long struggle of the Deaf to be taught in sign language the only language that renders them complete fully communicative human beings Shea explores the history of the deeply biased attitudes toward the Deaf in Europe and America which illogically forced them to be taught in a language they could neither hear nor speak As even A G Bell a fervent oralist admitted sign language is the quickest method of reaching the mind of a deaf child Shea's research exposes a persistent but misguided determination among hearing educators to teach the Deaf orally making the very faculty they lacked the principal instrument of their instruction To forbid their education in sign language the language of light is to deny the Deaf their human rights he concludes

The Repairable and the Irreparable Johann Michel, 2022-12-19 Since the mid twentieth century Western societies have seen an unprecedented increase in movements demands and policies in favor of reparations The historical catastrophes that shook the last century are both the immediate origin of this groundswell and its founding paradigm The Repairable and the Irreparable Being Human in the Age of Vulnerability places reparation within a wider contemporary context and describes it in its full anthropological depth Repair is a global phenomenon that does not present itself in a unified way Ideas of repair and reparation are expressed at different levels for instance one can mend a damaged object heal a wound redress an injury or make amends for an offence Johann Michel explores how repair and reparation tell us about human beings' natural vulnerability our moral fallibility and our social incompleteness but also about the many capabilities we draw upon to mitigate these shortcomings It is from the heart of human finitude that repair and reparation draw meaning and the irreparable whether due to time or to a debt that can never be repaid haunt any policy of reparation Such are the

challenges to be addressed by a philosophy of repair and reparation constructed in renewed dialogue with the social sciences
