Randall,2013 *Learning to Forget* David Fitzgerald,2013-06-26 Learning to Forget analyzes the evolution of US counterinsurgency COIN doctrine over the last five decades Beginning with an extensive section on the lessons of Vietnam it traces the decline of COIN in the 1970s then the rebirth of low intensity conflict through the Reagan years in the conflict in Bosnia and finally in the campaigns of Iraq and Afghanistan Ultimately it closes the loop by explaining how by confronting the lessons of Vietnam the US Army found a way out of those most recent wars In the process it provides an illustration of how military leaders make use of history and demonstrates the difficulties of drawing lessons from the past that can usefully be applied to contemporary circumstances The book outlines how the construction of lessons is tied to the construction of historical memory and demonstrates how histories are constructed to serve the needs of the present In so doing it creates a new theory of doctrinal development **Redevelopment and Race** June Manning Thomas,2013-04-15 In the decades following World War II professional city planners in Detroit made a concerted effort to halt the city s physical and economic decline Their successes included an award winning master plan a number of laudable redevelopment projects and exemplary planning leadership in the city and the nation Yet despite their efforts Detroit was rapidly transforming into a notorious symbol of urban decay In *Redevelopment and Race Planning a Finer City in Postwar Detroit* June Manning Thomas takes a look at what went wrong demonstrating how and why government programs were ineffective and even destructive to community needs In confronting issues like housing shortages blight in older areas and changing economic conditions Detroit s city planners worked during the urban renewal era without much consideration for low income and African American residents and their efforts to stabilize racially mixed neighborhoods faltered as well Steady declines in industrial prowess and the constant decentralization of white residents counteracted planners efforts to rebuild the city Among the issues Thomas discusses in this volume are the harmful impacts of Detroit s highways the mixed record of urban renewal projects like Lafayette Park the effects of the 1967 riots on Detroit s ability to plan the city building strategies of Coleman Young the city s first black mayor and his mayoral successors and the evolution of Detroit s federally designated Empowerment Zone

Examining the city she knew first as an undergraduate student at Michigan State University and later as a scholar and planner Thomas ultimately argues for a different approach to traditional planning that places social justice equity and community ahead of purely physical and economic objectives *Redevelopment and Race* was originally published in 1997 and was given the Paul Davidoff Award from the Association of Collegiate Schools of Planning in 1999 Students and teachers of urban planning will be grateful for this re release A new postscript offers insights into changes since 1997 **Mapping Out Curriculum in Your Church** James R.
