Forging the Sword Benjamin Jensen, 2016-02-24 As entrenched bureaucracies military organizations might reasonably be expected to be especially resistant to reform and favor only limited incremental adjustments Yet since 1945 the U S Army has rewritten its capstone doctrine manual Operations fourteen times While some modifications have been incremental collectively they reflect a significant evolution in how the Army approaches warfare making the U S Army a crucial and unique case of a modern land power that is capable of change So what accounts for this anomaly What institutional processes have professional officers developed over time to escape bureaucracies iron cage Forging the Sword conducts a comparative historical process tracing of doctrinal reform in the U S Army The findings suggest that there are unaccounted for institutional facilitators of change within military organizations Thus it argues that change in military organizations requires incubators designated subunits established outside the normal bureaucratic hierarchy and advocacy networks championing new concepts Incubators ranging from special study groups to non Title 10 war games and field exercises provide a safe space for experimentation and the construction of new operational

concepts Advocacy networks then connect different constituents and inject them with concepts developed in incubators This injection makes changes elites would have otherwise rejected a contagious narrative *Reframing 9/11* Jeff Birkenstein, Anna Froula, Karen Randell, 2010-08-01 September 11th 2001 remains a focal point of American consciousness a site demanding ongoing excavation a site at which to mark before and after everything changed In ways both real and intangible the entire sequence of events of that day continues to resonate in an endlessly proliferating aftermath of meanings that continue to evolve Presenting a collection of analyses by an international body of scholars that examines America's recent history this book focuses on popular culture as a profound discursive site of anxiety and discussion about 9/11 and demystifies the day's events in order to contextualize them into a historically grounded series of narratives that recognizes the complex relations of a globalized world Essays in *Reframing 9/11* share a collective drive to encourage new and original approaches for understanding the issues both within and beyond the official political rhetoric of the events of the The Global War on Terror and issues of national security *Informal Learning and Digital Media* Kirsten Drotner, Hans Siggaard Jensen, Kim Christian Schrøder, 2009-12-14 The book provides an engaging overview of the ways in which digital media impact on current understandings of informal learning and it offers a range of grounded studies of the changing relations between digital media and informal learning processes with a particular focus on young people A variety of international scholars examine these processes across a number of sites and settings from Japan to Finland and the USA and they discuss their implications for education ICT and media The volume is an ideal resource for graduate students as well as for practitioners and policy makers [How Computer Games Help Children Learn](#) D. the post 9 11 world In show after show she chillingly illustrates how popular television helped organize public feelings of loss fear empathy and self love into narratives supportive of a controversial and unprecedented war Takacs examines a spectrum of program genres talk shows reality programs sitcoms police procedurals male melodramas war narratives to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties Spanning the past decade of the ongoing conflict she reviews not only key touchstones of post 9 11 popular culture such as 24 Rescue Me and Sleeper Cell but also less remarked upon but relevant series like JAG Off to War Six Feet Under and Jericho She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions Who exactly are we fighting Why do they hate us and she examines the climate of fear and paranoia they ve created Unlike cultural analyses that view the government s courting of Hollywood as a conspiracy to manipulate the masses her book considers how economic and industry considerations complicate state media relations throughout the era Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration s security agenda and argues for the continued importance of the medium as a tool of collective identity formation It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty first century
