## **Mind Master The The Tentacles From Below:**

**The Tentacles from Below** Anthony Gilmore, 2010-09-25 Down to tremendous ocean depths goes Commander Keith Wells in his blind duel with marauding machine fish      **The Mind Master and the Tentacles from Below** Arthur J. Burks, Anthony Gilmore, 2014-12-03 Armchair Fiction presents extra large editions of classic science fiction double novels The first novel Arthur J Burks The Mind Master is a sequel to one of the most popular stories to ever grace the pages of Astounding Stories Manape the Mighty which appeared in the magazine s June 1931 issue In the original Manape tale protagonist Lee Bentley and his sweetheart Ellen Estabrook were subjected to the psychotic desires of one of pulp fiction s great maniacs the mad scientist Professor Caleb Barter who eventually drugged Bentley and transplanted his brain into an ape After escaping from Barter s jungle of horror in the original story Bentley and Estabrook head home to New York City which is the setting for The Mind Master We soon learn that the good professor is still very much alive He is now equipped with new devices of terror including heat rays disintegrator rays and brain implants that allow him to control the human mind at great distances The only question remaining is whether Bentley and Estabrook can escape from his mad plans a second time This edition s second novel is The Tentacles from Below In this classic tale from science fiction s golden years a terrible undersea menace is wreaking havoc off the Newfoundland banks Commander Keith Wells and the crew of his new advanced submarine the NX 1 investigate a series of deep sea cataclysms that are literally tearing up the ocean floor and causing massive changes to hundreds of miles of ocean bed But their investigation soon turns into a rescue mission when a nearby fleet of fishing boats suddenly vanishes into thin air during calm seas For Wells and the crew of the NX 1 these incidents are a prelude to something far more dangerous though Below the sea is the menace of a newly discovered race a race of tentacled creatures the likes of which man has never seen before These creatures along with their army of machine fish have very unfriendly designs on the world of man      **Exiles from Below** Neil R. Jones, 2011-06-10 Another adventure of the intrepid Professor Jameson Excerpt Professor Jameson clung more tightly to his precarious perch on the sloping mountainside His metal tentacles curled about treacherous knobs of slippery rock His mechanical eyes circling the coned metal head regarding Gloph the intelligent space creature who too fought for his life against the face of the looming peak Around them shone the stars of space and several little moons moved visibly in ever changing phases Out of the darkness a blazing sun threw sharp etched shadows all about them Far beneath them they saw the haze of the planet s low lying dense atmosphere up out of which the towering mountains reached beyond and into space a bleak region a veritable top of the world where only Gloph and his species lived The space ship of the Zoromes was gone It had fallen when a part of the mountain peak had slid away Weathering had weakened the mountain peak beneath the atmosphere line The professor remembered 65G 849 remarking about this characteristic as they had approached and examined the strange world from out in space There is no weathering on the mountain tops in space other than what results from temperature changes when the

sun shines 65G 849 had assured his fellow Zoromes It is different however below the atmosphere line Because of the presence of atmosphere and moisture a good many of the mountain peaks are undermined around the edges Besides the space ship and those inside it the five machine men who had come out of the space ship with the professor to talk with friendly space creatures had gone hurtling to their doom The professor had seen 6W 438 119M 5 29G 75 777Y 46 and 7H 88 grab frantically for something to stay their plunge Only the professor and 119M 5 had been successful in gaining a hold and 119M 5 s respite had been but a brief one The machine man s hold on the slippery surface had been even more insecure than the professor s 119M 5 had shot by the professor radiating a departing farewell Among the group of space creatures accompanying the machine men all had fallen too except Gloph who with the professor and 119M 5 had been farthest from the edge of the great break Before the catastrophe the space creatures had formed a funeral cortege in the performance of strange rites for the two of their dead and the machine men had watched At the climax of the rites it was the custom the machine men had learned to hurl the two dead bodies off the precipice and into the atmospheric sea far below It was never just one There always had to be two Professor Jameson looked across at Gloph and envied the latter s soft shaggy feet which gave him some measure of support in avoiding the inevitable Are you all right he radiated For the moment the long thin creature with the luminous eyes formed the thought But I can get nowhere from here He gazed up helplessly at the steep slope they were on His four long arms clung to scanty holds on the steep face of the mountain four shaggy hooves settled against uneven spots on the slippery rock while the long gray body hugged the wall closely We can t get up farther the machine man told him If we could only climb down It would be easier to climb if we were below the atmosphere line
