Perspectives on Academic Writing Bernd Herzogenrath,2022-11-17 Particularly for the disciplines of the humanities and social sciences for which writing is their lifeblood the crisis in academic writing has become existential It is not hard to diagnose the disease and its causes This book showcases what we desperately need radical alternatives experiments we can try out ways of writing that don t just tweak the system but plot a different course altogether This isn t just about finding new genres for these only change the surface appearance without altering the underlying dynamic Rather the editor and contributors focus on finding new ways to join thinking both with writing and the things of which and with which we write Each chapter brims with the kind of liveliness outspokenness and urgency that their theme demands Far from tiptoeing around the edifice of academia they are intent on stirring things up reigniting their scholarship with a fuse of activism in the hope of setting off an explosion that could send ripples throughout the academy *Swami Vivekananda* Rita D.

Sherma,2021-01-11 With historical critical analysis and dialogical even handedness the essays of this book re assess the life and legacy of Swami Vivekananda forged at a time of colonial suppression from the vantage point of socially engaged religion at a time of global dislocations and international inequities Due to the complexity of Vivekananda as a historical figure on the cusp of late modernity with its vast transformations few works offer a contemporary multi vocal nuanced academic examination of his liberative vision and legacy in the way that this volume does It brings together North American European British and Indian scholars associated with a broad array of humanistic disciplines towards critical constructive contextually sensitive reflections on one of the most important thinkers and theologians of the modern era *Inorganic Chemistry* James Walker,1919
